The Demerged Company is, *inter-alia*, engaged in the business of:

- i. providing timely and accessible unsecured business loans to micro, small and medium enterprises (MSMEs) through digital/ online mode, co-lending in partnership with banks and other financial institutions, working capital financing and material procurement financing, to support their growth and expansion objectives i.e., Business Loan Undertaking; and
- ii. providing secured loans for acquisition of machinery and equipments i.e., Equipment Finance Undertaking.

The COVID-19 pandemic had significantly affected the Business Loan Undertaking of the Demerged Company as a result of which the Demerged Company faced unprecedented challenges including increased risk in default, increased non-performing assets, tightening of the lending standards, liquidity constraints etc. which resulted in losses to the Demerged Company.

In order to address the situation, certain loans that were deemed uncollectible or irrecoverable were written off from the books of the Demerged Company

and the focus of the Demerged Company increased more on collections and recoveries.

Further, to regain the strength, the Demerged Company started the Equipment Finance Undertaking whereby the Demerged Company provided loans for acquisition of machinery and equipments and generated better results as compared to the Business Loan Undertaking. As there are differences in the approach of sourcing, underwriting and target segments of Business Loan Undertaking and Equipment Finance Undertaking, therefore, considering the fact that results in Equipment Finance Undertaking is better as compared to Business Loan Undertaking, management of the Demerged Company decided to focus on the Equipment Finance Undertaking solely and proposed to demerge its Business Loan Undertaking with and into the Resulting Company-2 which is, *inter-alia*, engaged in providing unsecured business loans to small and micro businesses.

The proposed demerger of Business Loan Undertaking of the Demerged Company with and into the Resulting Company-2 is expected to achieve the following benefits:

- (a) Consolidation of business of unsecured business loans to micro, small and medium enterprises with and into the Resulting Company-2 which is engaged in similar line of business, leading to better administration and reduction in operational cost due to synergy in operations, and rationalization, standardization and simplification of business process.
- (b) To enable the Demerged Company to focus and enhance its Equipment Finance Undertaking operations by streamlining operations and consequently, ensuring better and more efficient management and business development.

- (c) Creating opportunities for pursuing independent growth and expansion strategies in the segregated businesses.
- (d) Increasing efficiency in management, control and administration of the affairs of the Companies.
- (e) Enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies.

The Consideration (as defined in Clause 23 of the Scheme) for transfer and vesting of Demerged Undertaking (i.e., Business Loan Undertaking) with and into the Resulting Company-2 in terms of the Scheme shall be discharged by Resulting Company-1 since –

- (a) Resulting Company-1 is holding the entire share capital of the Resulting Company-2, and therefore, having deep commercial interest in Resulting Company-2.
- (b) the business of Resulting Company- 1 is inextricably linked with the business of Resulting Company-2 so much, so that Resulting Company-2 cater to the funding requirement of the clients of Resulting Company-1.
- (c) Resulting Company-1 has higher equity value in comparison to Resulting Company-2 and the initial public offer has also been projected in Resulting Company-1.
- (d) for the business of Resulting Company-2, Resulting Company- 1 provide tech platform for Resulting Company-2's borrowers, generate leads, etc. while Resulting Company-2, only source the borrowers by providing them the business loans.

 - If the Company, by re-classification or conversion of Shares or otherwise, changes any of the Equity Shares into the same or a different number of Shares of any other class or classes, the right to convert the Series A3 CCPS into Equity Shares shall thereafter represent the right to acquire such number and kind of Shares as would have been issuable as a result of such change with respect to the Equity Shares, that were subject to the conversion rights of the holders of the Series A3 CCPS immediately prior to the record date of such re-classification or conversion.
 - The holders of the Series A3 CCPS shall be entitled to the cumulative benefit of all adjustments referred to herein.

PROCEDURE ADOPTED AND VALUATION METHOD(S) FOLLOWED FOR THE ASSIGNMENT:

I. APPROACH CONSIDERED IN OUR VALUE ANALYSIS:

General Principle for Valuation

There is no single definition of the term 'Value' that is suitable for all purposes or at all times. The value of a particular asset may vary according to different valuation methodologies that are adopted to ascertain the value for a specific purpose. Valuation of securities is an inexact science. It may sometimes involve a set of judgments and assumptions that may be subject to certain uncertainties.

Selection of Valuation Methodology

The objective of the valuation process is to make a best reasonable judgment of the value of the shares of the Company. There are a number of valuation methodologies to value companies / businesses using historical and forecast financials of the company. Commonly used valuation methodologies are as follows:

↓ **Net Asset Value (NAV) Method**

In Net Asset Value (NAV) Method, the assets and liabilities are considered at realizable value or book value, including intangible assets and contingent liabilities, if any, which are not stated in the balance sheet. From the value of the assets, the potential liabilities which would have to be paid would be deducted and resultant figure is the NAV of the company.

This valuation approach is mainly used in case where the asset base dominates the earnings capability or in a case where the valuing entity is a holding company deriving significant value from its assets and investments. NAV Method is most applicable for the business where the value lies in the

Share Swap Report

underlying assets or in cases where the ongoing operations of the business and the potential future cash flows of the business cannot be reasonably estimated or where the operations / business of an entity is discontinued. In the present instance, Companies have going on business operations, therefore, we have not considered the NAV method to calculate the value of equity share of Companies.

✦ **Discounted Cash Flow (DCF) Method**

The Income Method focuses on the profit/earnings potential of the business being valued. The Income Method of valuation includes Discounted Cash Flow ("DCF") Method which has been discussed hereinafter.

Under DCF Method, the free cash flows attributable to the firm for a predetermined number of future years and perpetuity are considered and discounted to their present value. The free cash flows attributable to the firm are the cash flows from operating activities as reduced by the estimated/ planned capital expenditure and working capital requirement in each of the future years.

The cash flow projections, the estimations of capital expenditure and working capital requirement are based on the management's view of the future business prospects of the company and the anticipated economic conditions in relation to the industry in which the company operates.

In the present instance, Companies have on going business operations. Accordingly, the Management of Companies has provided the future projections. Therefore, the discounted cash flow approach has been applied for the purpose of valuation of Companies.

✦ **Market Price Method**

The market price of an equity share quoted on a stock exchange is normally considered as the value of equity share of the Company, if such shares are frequently traded subject to speculative support that may be inbuilt in the value of such shares. Equity Shares of the Companies are not traded on any stock exchanges and therefore, Market Price Method is not relevant for the present valuation exercise. Hence, we have not considered this method for the valuation.

✦ **Comparable Company Multiples (CCM) Method**

Under the Comparable Companies Multiple Method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation method is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. The base(s) to which a multiple is commonly applied include sales, EBITDA, cash flows and book value.

The Companies has less or nil revenue. Given this and the non-comparability with listed companies, this method has not been used to calculate the fair value of equity shares of the Companies.

II. Basis for arriving at Swap Ratio:

Based on the discussions in the preceding paragraphs w.r.t valuation methodologies as well as regulatory requirements, we have determined appropriate value of the Demerged Undertaking and Series A3 CCPS of SFPL based on the methodology of Discounted Cash flow Method.

III. VALUATION OF EQUITY SHARES

The valuation summary of SFPL and Demerged Undertaking as per Discounted Cash Flow Method is as under:

M/s. Stride Fintree Private Limited (SFPL)

The valuation has been done on the basis of Provisional Financials for the period ended 29th February, 2024 and Projection comprising projected Balance Sheet and Profit and Loss statement for the period from Financial year 2023-24 (3 Months) to Financial year 2027-28.

The value per Series A3 CCPS of SFPL of par value of Rs. 10 each has been determined under Discounted Cash flow Method as Rs. 6140.00 per Series A3 CCPS.

statement for the period from Financial year 2023-24 (3 Months) to Financial year 2027-28 ("explicit period") as provided to us by the Management.

For the explicit period, free cash flows from the business have been arrived at as follows:

- Profits after Tax as per the projections have been considered.
- Depreciation & amortization on fixed assets have been added.
- Fund requirements for incremental working capital and capital expenditure have been reduced from the cash earnings of the respective years.
- The cash flows of each year are then discounted at the Adjusted Weighted Average Cost of Capital (WACC). WACC is considered as the most appropriate discount rate in the DCF Method, since it reflects both the business and the financial risk of the Company. In other words, WACC is the weighted average of the firm's cost of equity and debt. The WACC is worked out using the following parameters:

• Cost of Equity is worked out using the following formula:

- Risk Free Return + (Beta x Equity Risk Premium) + Company specific premium;
- The risk free rate of return is taken at 7.07% based on Indian government bond rate for 10 years – source, (<https://countryeconomy.com/bonds/india?dr=2024-02>).
- Industry leveraged Beta is considered as 1.00 since we don't any exact comparable listed company.
- Based on qualitative analysis of long term, equity risk premium, expected premium is arrived – source, CAGR of BSE Sensex S&P 500 from 1st February, 1999 to 29th February, 2024 i.e. 7.71 % - Source: www.bseindia.com;
- Company specific premium of 5% has been considered based on size of SFPL and past profit history of SFPL;
- Based on the above, the Cost of Equity is determined to be 19.78 %.

- After the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity value is also considered to arrive at the enterprise value. For arriving at the perpetuity value, we have considered a growth rate of 5.0% based on management estimate.
- Cash flows for perpetuity have been arrived at after considering the corporate taxes, estimated capital expenditure and incremental working capital requirements.
- The discounted perpetuity value is added to the discounted cash flows for the explicit period to arrive at the enterprise value.
- Appropriate adjustments have been made for cash and cash equivalents to arrive at the Equity Value.
- Since SFPL is an unlisted company, discount for lack of marketability has been considered at the rate of 15% on the Equity Value.
- The value so arrived is divided by the outstanding number of equity shares, CCPS and ESOPs on fully diluted basis as on the date of this report to arrive at the value per share.

Valuation assumptions:

Valuation under DCF method is based on management Provisional Financials for the period ended 29th February, 2024 and Projection comprising projected Balance Sheet and Profit and Loss statement for the period from Financial year 2023-24 (3 Months) to Financial year 2027-28 ("explicit period") as provided to us by the Management.

For the explicit period, free cash flows from the business have been arrived at as follows:

- Profits after Tax as per the projections have been considered.

Private and Confidential
Share Swap Report

- Depreciation & amortization on fixed assets have been added.
- Fund requirements for incremental working capital and capital expenditure have been reduced from the cash earnings of the respective years.
- The cash flows of each year are then discounted at the Adjusted Weighted Average Cost of Capital (WACC). WACC is considered as the most appropriate discount rate in the DCF Method, since it reflects both the business and the financial risk of the Company. In other words, WACC is the weighted average of the firm's cost of equity and debt. The WACC is worked out using the following parameters:
 - Cost of Equity is worked out using the following formula:
 - Risk Free Return + (Beta x Equity Risk Premium) + Company specific premium;
 - The risk free rate of return is taken at 7.07% based on Indian government bond rate for 10 years – source, (<https://countryeconomy.com/bonds/india?dr=2024-02>).
 - Industry leveraged Beta is considered as 1.00 since we don't any exact comparable listed company.
 - Based on qualitative analysis of long term, equity risk premium, expected premium is arrived – source, CAGR of BSE Sensex S&P 500 from 1st February, 1999 to 29th February, 2024 i.e. 7.71% - Source: www.bseindia.com;
 - Company specific premium of 5% has been considered based on size of BJFPL and past profit history of BJFPL;
 - Based on the above, the Cost of Equity is determined to be 19.78%.
- After the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity value is also considered to arrive at the enterprise value. For arriving at the perpetuity value, we have considered a growth rate of 5.0% based on management estimate.
- Cash flows for perpetuity have been arrived at after considering the corporate taxes, estimated capital expenditure and incremental working capital requirements.
- The discounted perpetuity value is added to the discounted cash flows for the explicit period to arrive at the enterprise value.
- Appropriate adjustments have been made for cash and cash equivalents to arrive at the Equity Value.
- Since BJFPL is an unlisted company, discount for lack of marketability has been considered at the rate of 15% on the Equity Value.

to the extent necessary to maintain its proportionate shareholding percentage ("Pre-Emptive Entitlement") in the Company in accordance with the provisions of this Article 97.

- 97.2 Procedure: The Pre-emptive Right shall be offered by the Company by issuing a written notice to each of the Pre-emptive Right Holders ("Issuance Notice") setting forth in detail the terms of the proposed Issuance, including the price of the proposed Issuance ("Issuance Price"), the target date of completion of the proposed Issuance (which shall not be less than 30 (Thirty) days and no later than 120 (One Hundred and Twenty) days from the date of the Issuance Notice) ("Issuance Date"), and the aggregate number of Securities proposed to be issued ("Issuance Shares").
- 97.3 If a Pre-emptive Right Holder wishes to exercise its right under this Article 97, then within 30 (Thirty) days from the date of receipt of the Issuance Notice ("Exercise Period"), it shall issue a notice ("Exercise Notice") to the Company (with a copy to the other Pre-emptive Right Holders) notifying its intention to exercise the Pre-emptive Right on all or part of its Pre-Emptive Entitlement of the Issuance Shares. Further, on the date of completion of the Issuance, the Pre-emptive Right Holder(s) shall pay for and subscribe to such number of the Issuance Shares as mentioned in its respective Exercise Notice (not exceeding the Pre-Emptive Entitlement of such Pre-Emptive Right Holder) ("Accepted Shares") at the Issuance Price and on the terms and conditions set out in the Issuance Notice. The Company shall issue a notice to the Angel Investors ("Follow-on Issuance Notice") setting forth: (i) the price per Security at which the Follow-on Issuance is proposed to be undertaken, which shall not differ from the price per Equity Security issued by the Company in the Closure of Round; (ii) the number of Securities proposed to be issued as part of the Follow-on Issuance (calculated in the manner set out in this Article 97.4) to each Angel Investor ("Follow-on Exercise Securities"); and (iii) the date of closing of the Follow-on Issuance, which shall not be less than 30 (Thirty) days and no later than 60 (Sixty) days from the date of receipt of the notice of Follow-on Issuance Notice. Exercise Securities at the price set out in the Follow-on Issuance Notice, to the Angel Investors, that have exercised their pre-emptive right in the manner set out in these Articles. Subject to the receipt of payment of consideration for the issuance of the Follow-on Exercise Securities, the Company shall issue and allot the Follow-on Exercise Securities to the Angel Investors that have exercised their pre-emptive right in the manner set out in these Articles, in accordance with the Follow-on Issuance Notice. If the Angel Investors serve a notice to the Company, in the manner set out in these Articles, but fail to remit the consideration for the issuance of the Follow-on Exercise Securities to the Company, then such Angel Investor shall be deemed to have rejected their pre-emptive right and such default will be considered to be a material default by the relevant Angel Investor, for the purpose of these Articles. If the Angel Investors do not serve a notice to the Company in the manner set out in these Articles, then such Angel Investor shall be deemed to have rejected their pre-emptive right. For the avoidance of doubt, the shareholding of the non-subscribing Angel Investor will accordingly be diluted, and the relevant proportion of the Angel Investor will be adjusted to reflect such dilution.

97.6 In the event (a) a Pre-Emptive Right Holder issues an Exercise Notice within the Exercise Period but fails to make a payment of the Issuance Price in relation to its Accepted Shares on or prior to the Issuance Date; (b) the Pre-emptive Right Holders do not elect to subscribe to any portion of the Issuance Shares; (c) the Pre-emptive Right Holders do not respond to the Issuance Notice within the Exercise Period; or (d) an Angel Investor issues a Follow-on Exercise Notice within the Follow-on Exercise Period but fails to make a payment of consideration in relation to its Follow-on Exercise Securities on or prior to the Follow-on Issuance Date then, notwithstanding anything contained herein, the Company shall be entitled to issue and allot such unsubscribed Issuance Shares or Follow-on Exercise Securities to any Person at such price and on such terms and conditions as it may deem fit within 180 (One Hundred and Eighty) days from the date of the Issuance Notice.

97.7 If the Pre-Emptive Right Holders and / or the Angel Investors have exercised their respective rights in the manner set out under this Article 97, but the allotment of the Issuance Shares (in favour of any Pre-Emptive Right Holder, the Angel Investors or third party, as the case may be) is not completed by the Company within 180 (One Hundred and Eighty) days from the date of the Issuance Notice, then the right of the Company to make the Issuance shall lapse and the provisions of this Article 97 shall once again apply to such Issuance.

97.8 Notwithstanding the above, there exists no commitment by any of the Pre-emptive Right Holder to further capitalize the Company or provide financial assistance to the Company in any form whatsoever.

98. ANTI-DILUTION PROTECTION

98.1 In the event of a Down-round (except a Down-round in respect of which the AD Investor(s) has waived its rights under this Article 98 in writing and as set out in Article 98.3 below), each AD Investor shall be entitled to a broad based weighted average anti-dilution protection in accordance with the formula set forth under Article 98.4. In such an event, subject to applicable Law, the Company shall and the Founder shall procure

that the Company forthwith take necessary and reasonable steps to give effect to the broad based weighted average anti-dilution protection of the AD Investor by: (a) adjusting the conversion ratio of the relevant AD Investor's Securities that are convertible preference shares issued by the Company; (b) the Company undertaking a fresh issuance of the additional Securities to the relevant AD Investor at the lowest permissible price under applicable Law (including by way of a rights issue), or (c) undertaking such other reasonable steps that are permissible under applicable Law to allot to the AD Investor such additional Securities as is due to be issued to the AD Investor pursuant to the price adjustment under Article 98.4. It is hereby clarified that, anti-dilution protection under this Article 98 shall extend to the Equity Shares which have converted from the relevant series of preference shares of the Company.

- 98.2 It is clarified that in the event that any AD Investor is entitled to any additional Securities pursuant to the provisions of Article 98.1, such Securities shall be included towards calculation of the total Securities held by the AD Investor for the purposes of these Articles. If at the time of a proposed Issuance under Article 97, any AD Investor is entitled to any additional Securities pursuant to the provisions of Article 98.1, then the price which would be payable by such AD Investor in relation to the Securities to be issued to it under Article 97 shall, to the maximum extent possible, be reduced by the price of the additional Securities to be issued or transferred to the AD Investor pursuant to Article 98.1. In the event that for any reason, it is not possible for the Parties to ensure that the intent of Article 98 is achieved in the manner prescribed above, then such other alternative structure or mechanism shall be undertaken, so as to ensure that the intent of Article 98 is achieved.
- 98.3 In the event of a Down-round, the Company shall issue notices to the Major Investors, seeking their consent to undertake the Down-round ("Down-round Notice"). The Major Investors are required to respond to the Down-round Notice within 10 (Ten) days from the issuance of the Down-round Notice ("Down-round Response Period") accepting or rejecting the Down-round. In the event, the Major Investors do not respond to the Down-round Notice within the Down-round Response Period, such Major Investor shall have deemed to have rejected the Down-round. Notwithstanding anything stated above, any Major Investor who has accepted the Down-round shall not be entitled to anti-dilution protection as specified in this Article 98 provided that, the Founder has not voted in favour of the Down-round.

98.4 Broad Based Weighted Average Anti-Dilution Adjustment

Additional Shares = $(AA / NP) \cdot \text{Series X Shares}$

Series X Shares = Convertible preference shares whose then current conversion price is higher than the Down-round Price

<<AA = The current conversion price of the Series X Shares multiplied by the number of Series X Shares held by the AD Investor >>

$NP = OP \cdot ((CSO + CSP) / (CSO + CSAP))$

CERTIFIED TRUE COPY

TRUE COPY

Where:

NP = New Price ⁽¹⁾

OP = <<The current conversion price of the Series X Shares >>

CSQ = the aggregate of Securities outstanding immediately prior to the Down-round reckoned on a Fully Diluted Basis

CSP = the consideration received by the Company in the Down-round, divided by OP (i.e. "what the incoming Investor should have bought for its aggregate consideration at OP")

CSAP = Number of Securities (on a Fully Diluted Basis) actually issued in the Down-round (i.e., "what the incoming Investor actually bought at the Down-round Price")

In the event an AD Investor has acquired Securities at different prices in different series of financing in the Company, then the above formula shall be applied severally to each series of Securities that were acquired at a price higher than the Down-round Price. As a result, references to AA, NP, OP and Series X Shares shall be construed and applied in the context of each series of Securities held by an AD Investor.

99. LIQUIDATION PREFERENCE

99.1 Notwithstanding any contrary terms and conditions of the SHA and these Articles, in the event of the occurrence of any Liquidation Event, first, and before any payment is made to any other Shareholder, subject to applicable Law, each of the Investors shall have the right (on a pari passu basis with each other), in preference to the Founder and other Shareholders, to receive from the total proceeds from such Liquidation Event ("Distributable Proceeds") an amount equal to the Liquidation Preference Amount payable on the Securities held by such Investor at such time of occurrence of the Liquidation Event. Any remaining Distributable Proceeds after the payment of the aggregate Liquidation Preference Amounts to all Investors shall be distributed among all remaining Shareholders (other than the Investors but including the Founder) in proportion to their respective shareholding in the Company. In the alternative, an Investor shall be entitled to waive its right to receive the Liquidation Preference Amount (or portion thereof) in relation to a series of preference shares, and instead participate in the Distributable Proceeds (remaining after distribution of Liquidation Preference Amounts to LP Electing Investors) pari passu with all other Shareholders (other than the LP Electing Investors) based on each of such Shareholders' then proportionate shareholding in the Company (*inter se* themselves) on a Fully Diluted Basis ("Inter-Se Proportion"). It is further clarified that in the event an Investor only exercises its right to receive a part of the Liquidation Preference Amount for a specified series of preference shares, it shall not be entitled to receive the Inter-Se Proportion for that particular series of preference shares.

99.2 Notwithstanding anything set out above, it is clarified that each Investor shall be entitled to receive the Inter-Se Proportion of the remaining Liquidation Proceeds or the Liquidation Preference Amount (as may be elected by the Investor in accordance with Article 99.1) with respect to each series of preference shares of the Company held by it

(including the Equity Shares which have been converted from such series of preference shares) such that where an Investor holds more than one series of preference shares, such Investor may (at its sole discretion) elect to receive: (i) the Inter-Se Proportion on one or more series of preference shares of the Company (including the Equity Shares which have been converted from such series of preference shares) but the Liquidation Preference Amount on any other series of preference shares of the Company (including the Equity Shares which have been converted from such series of preference shares) held by it; or (ii) the Inter Se Proportion or the Liquidation Preference Amount uniformly on all series of preference shares of the Company (including the Equity Shares which have been converted from such series of preference shares) held by it. Provided however, under no circumstance shall an Investor be entitled to the Liquidation Preference Amount as well as the Inter Se Proportion on the same series of preference shares of the Company (including the Equity Shares which have been converted from such series of preference shares).

- 99.3 In the event the total proceeds from the Distributable Proceeds are less than the respective Liquidation Preference Amounts receivable by the LP Electing Investors, subject to applicable Law, the entire Distributable Proceeds shall be distributed among the Investors *pro rata* to the initial subscription amount paid by each of them to subscribe to their respective Securities issued by the Company.
- 99.4 In the event that the Liquidation Event is a merger or a demerger involving the Company and / or the Company Subsidiaries, the Investors shall have the right to require that, instead of receiving cash payment of the Liquidation Preference Amount or Inter-Se Proportion, to receive, pursuant to such merger or demerger, such number of securities or other consideration in the resulting entity (pursuant to merger and/or demerger, as the case may be) whose value is equivalent to the value of the Liquidation Preference Amount or such other amount as the Parties may agree to in writing.
- 99.5 Notwithstanding anything contained herein, the provisions of this Article 99 will not apply in case of any independently negotiated Transfer of Securities by any Investor(s) to a third party purchaser on such terms and conditions as are accepted by such Investor(s) but will continue to apply in case of Exit by a Drag Sale.

100. TRANSFER OF SHARES AND RESTRICTIONS THEREON

Within 15 (Fifteen) Business Days from the date of receipt of such documents, the Company shall affirm and execute the Deed of Adherence, failing which execution the Company shall have been deemed to have granted consent to the Transfer. However, if the Investor Transferee also subscribes to Securities of the Company (simultaneously with the acquisition of Securities from such Investor) and executes a shareholders' agreement with the Company and the continuing Shareholders, to record their inter-se rights and obligations in the Company, then such Investor Transferee shall not be required to sign a Deed of Adherence.
- (d) It is hereby agreed by the Parties that all rights and obligations of the transferring Investor under these Articles shall be applicable to the Investor Transferee; provided however that the right under Articles 103.2 and 103.6 (right to nominate/remove Investor Director or Observer to the Board of the Company) shall be exercised either by such transferring Investor or Investor Transferee (and not severally by both) so long such transferring Investor or Investor Transferee (as the case may be) are a Major Investor.
- (e) Any Transfer of Securities by the Investors to a Restricted Competitor prior to expiry of the Lock-in Period shall not be permitted. Notwithstanding the above, after the Lock-in Period or upon the issuance of an EoD Notice, whichever is earlier, this restriction to sell to a Restricted Competitor shall fall-away.
- (f) Any Transfer of Securities by the Investors in violation with the terms of these Articles shall be void.

- (e) None of the Angel Investors shall Transfer, directly or indirectly, any Securities to any Person except in accordance with Article 100.6. It is further clarified, that in any event the Angel Investors shall not be permitted to transfer to a Restricted Competitor. Any Transfer of Securities by the Founder and Angel Investors shall at all times be subject to execution of Deed of Adherence by the transferee.
- (f) Any Transfer of Securities by the Founder and Angel Investors in violation with the terms of these Articles shall be void.

100.3 Right of First Refusal of the Investors

It is clarified that the election by an Investor to exercise its Right of First Refusal or its Tag Along Right (as the case may be) shall constitute a binding offer for the purchase of the ROFR Entitlement or the sale of the Tag Along Shares, as the case may be.
- (c) If any of the ROFR Investors do not issue a Response Notice within the Acceptance Period or issue a Response Notice indicating their decision to not exercise their respective Right of First Refusal pursuant to Article 100.3(b) in relation to all (and not part of) their ROFR Entitlement (such unexercised ROFR Entitlement, a "Non - Exercised Entitlement"), such Non - Exercised Entitlement shall devolve upon the other participating ROFR Investor(s) who have issued a Response Notice expressing their intention to exercise their respective Right of First Refusal ("Participating Investor(s)"). Within 2 (Two) days from the date of expiry of the Acceptance Period, the Selling Shareholder shall issue a notice (such notice, an "Additional Entitlement Offer Notice") to each of the Participating Investor(s) indicating the Non-Exercised Entitlement and offering the Participating Investor(s) the right to purchase such Non-Exercised Entitlement in the proportion of the inter se shareholding of the Participating Investors on a Fully Diluted Basis ("Additional ROFR Entitlement"). (in each case, such remaining ROFR Securities being "Unexercised Shares"), then, subject to Article 100.4 (if a Response Notice has been received in accordance with Article 100.3(b) from any Investor expressing its intention to exercise their Tag Along Right) and Article 100.5, the Selling Shareholder shall be free to Transfer the Unexercised Shares, to such proposed transferee as is identified in the ROFR Offer Notice on terms and conditions no more favourable to such proposed transferee than the Acceptable Sale Terms. Such Transfer shall be consummated within 30 (Thirty) days from the date of the expiry of the Acceptance Period or Additional Acceptance Period, as applicable.

- (e) In the event any of the Participating Investors issues a Response Notice exercising its Right of First Refusal in the manner set out in these Articles but fails to make the payment to purchase its entitlement of the ROFR Securities, then, upon the expiry of the Acceptance Period, the Selling Shareholder shall be entitled to Transfer the ROFR Securities (or any unpurchased remainder thereof) to any Person at a price and on any terms no more favourable to such proposed transferee than the Acceptable Sale Terms. We have audited the accompanying financial statements of **Blue Jay Finlease Private Limited** (formerly known as Blue Jay Finlease Limited) ("the Company"), which comprises the Balance Sheet as at 31st March, 2024, the Statement of Profit and Loss, the Cash Flow Statement for the year ended and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024, the loss, its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw your attention towards note number 3 and 4 of the Financial Statements, wherein it is mentioned that due to accumulated losses in the Company due to Covid, the Net Worth has been eroded and carried at a negative amount of Rs 46,969.14 thousand as a result the net owned funds have fallen below the limit of Rs 200 Lac as required by the Reserve Bank of India which is the requirement for holding the NBFC license. However, the Company has entered into a scheme of arrangement with another entity Stride One Capital Pvt Ltd (an RBI registered NBFC), for which NOC from RBI has been received on dated 21st June, 2023 and the application has also been filed with NCLT on 28th March, 2024 and is pending for approval. As informed to us, post the approval of this arrangement by NCLT, the management is of the opinion that the performance

of the Company will be more satisfactory and company would be able to meet the minimum capital requirement as required by the Reserve Bank of India.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's

TRUE COPY

Agiwal & Associates
CHARTERED ACCOUNTANTS

report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements that individually, or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of subsection 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of **Blue Jay Finlease Private Limited** (the "Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Due to inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Disclaimer of Opinion

According to the information and explanation given to us, the Company has not established its internal financial control over financial reporting on criteria based on or considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls over financial Reporting issued by the Institute of Chartered Accountants of India. Because of this reason, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion whether such internal financial controls over financial reporting and whether such internal financial controls were operating effectively as at March 31, 2024.

Material Weakness

Company is using Tally Accounting software for its non-banking transaction but there is no system of maker and checker which is required to satisfy adequacy of internal control system. Further, audit trail has not been enabled in accounting software used by the company.

A material weakness is a deficiency or a combination of deficiencies, in internal financial control over financial reporting, which confirms a reasonable possibility that a material misstatement of the company's annual financial statements may not be prevented or detected on timely basis.

2.1 Basis of preparation

The financial statements have been prepared and presented on going concern basis and under the historical cost convention, in accordance with the Generally Accepted Accounting Principles in India (GAAP), Non-Banking Financial Company- Non-Systemically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016 vide Master Direction DNBR. PD. 007/03.10.119/2016-17 dated 1 September 2016 (the 'Master Direction') issued by the Reserve Bank of India, as amended from time to time and as applicable to the Company. The GAAP comprises mandatory accounting standards as specified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.3 Current – non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle.

- it is held primarily for the purpose of being traded.
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

2.4 Provision for standard assets and non-performing assets

Provisions for standard assets are created at 0.40% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Provisions for Sub-standard assets are created at 10% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Provisions for Doubtful assets are created at 100% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Assets Classification	Overdue (in days)	% of provision
Standard assets	0-90 days	0.40%
Sub-standard assets	91-630 days	10%
Doubtful Assets	Above 630 days	100%

2.5 Property, plant and equipment and depreciation

All property, plant and equipment are stated at historical cost less any accumulated depreciation. Cost includes original cost of acquisition and incidental expenses related to such acquisition upto the date of installation.

Depreciation on property, plant and equipment is provided on the written down value based on the useful lives as specified in part 'C' of Schedule II of that Act. Depreciation in case of additions is calculated on a pro-rata basis from the date of asset was capitalised. On assets sold, discarded, etc. during the year, depreciation is provided up to the actual date of sale.

Leasehold improvements are depreciated on straight line basis as per the management estimate of useful life of the asset or the period of lease, whichever is shorter.

Losses arising from retirement or gains/losses arising from disposal of property are measured as the difference between the net proceeds and the carrying amount of assets on date of disposal and are recognised in the Statements of Profit and Loss in the year of sale/disposal/retire.

The appropriateness of the aforesaid estimate of useful lives is reviewed by the management during the financial year.

2.6 Intangible assets and amortisation

Intangible assets comprise of computer software purchased and application software built-in by the company (internally generated intangible assets). Computer software stated at acquisition cost less accumulated amortisation and impairment loss, if any.

With regards to internally generated intangible assets:

(All amounts are in Thousand , Unless otherwise stated)

- Expenditure on research activities undertaken with the prospect of gaining technical knowledge and understanding is recognised in the statement of profit & loss as incurred.
- Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset.

Amortisation of intangible assets comprising computer software has been provided at straight-line basis as per the life mentioned below, which in the opinion of the management represents the best estimate of useful life of these assets.

Intangible Asset	Estimated useful life*
Computer software	3 Years
Application software	10 Years

* The appropriateness of amortisation is reviewed by the management during each financial year.

2.7 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.8 Revenue recognition

Interest income on loan assets is accounted for at agreed rate of interest as per the agreement on accrual basis except for non-performing assets, in respect of which income is recognised when received in accordance with the Master Direction of the RBI. No income is accrued on accounts delinquent for more than 90 days. Payments received on delinquent accounts are first applied towards overdue interest (Penal Charges) and then interest and balance to the principal amount.

Penal interest charged on delayed payments is recognized on realization basis.

Processing fee income is recognised on upfront basis. Other income are recognized on accrual basis.

Service fee income is calculated as per the co-lending arrangements and/or securitization agreements. However, the same are recognised on accrual basis.

Revenue from interest on deposits is recognised on the time proportion method taking into consideration the amount outstanding and the applicable interest rates.

2.9 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset, or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine

the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.10 Borrowing Cost

The borrowing costs which are directly attributable to the acquisition or construction of qualifying assets, which necessarily take a substantial period of time to get ready for their intended use, are capitalized as part of cost of the assets. All other borrowing costs are immediately recognized as an expense in the Statement of Profit and Loss.

2.11 Employee benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognized in the Statement of Profit and Loss in the period in which the employee renders the related service.

Post-employment benefits

Defined contributions plans

The Company's Employee's Provident Fund is a defined contribution plan. The Company's contribution paid/payable under the scheme is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

Defined benefit plans

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets, if any, are deducted. The calculation of the Company's obligation under the plan is performed annually by a qualified actuary using the projected unit credit method.

The Company recognizes all actuarial gains and losses arising from the defined benefit plan immediately in the Statement of Profit and Loss. All expenses related to the defined benefit plan are recognized in employee benefits expense in the Statement of Profit and Loss. When the benefits of a plan are improved, the portion of the increased benefit related to past service by employees is recognized in Statement of Profit and Loss on a straight-line basis over the average period until the benefits become vested. The Company recognizes gains and losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs.

Other long-term employee benefits -compensated absences

Benefits under compensated absences (arising during the tenure of the services and which are expected on post-employment) constitute other long-term employee benefits. The liability in respect of compensated absences is provided on the basis of an actuarial valuation done by an independent actuary at the year end. Actuarial gains and losses are recognized immediately in the Statement of Profit and Loss.

2.12 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognized in Statement of Profit and Loss.

Current Tax is measured and expected to be paid to the tax authorities in accordance with the provisions of the Income Tax Act, 1961, and based on the expected outcome of assessment/appeals. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current Income Tax relating to the items recognized directly in equity is recognized in equity and not in the Statement of Profit and Loss. The provisions of current tax is made after considering impact if any, of provisions contained in Income Computation Disclosure Standards (ICDS) issued by CBDT vide Notification No. 87/2016 dated September 29, 2016.

Deferred tax is recognized in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.13 Leases

Operating lease

Lease arrangements, where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognized as operating lease.

Lease payments under operating lease are recognized as an expense in the Statement of Profit and Loss account on straight line basis over the lease period on accrual basis.

2.14 Earnings per share

In determining earnings per share, the company considers the net profit after tax and includes the post-tax effect of any extra ordinary items, if any.

Basic earnings per share are computed by dividing the net profit or loss for the year attributable to equity shareholders by weighted average number of equity shares outstanding during the year.

For the purpose of calculating Diluted Earning per share, the number of shares comprises of weighted average shares considered for deriving basic earning per share and also the weighted average number of equity share which could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. A transaction is considered to be antidilutive if its effect is to increase the amount of EPS, either by lowering the share count or increasing the earnings.

2.15 Foreign currency transactions

Initial Recognition: The transactions in foreign currency are initially accounted for at the rate prevailing as on the transaction date.

Conversion: The monetary items denominated in the foreign currency are stated at the exchange rate prevailing at the year end and the overall net gain/ (loss) is adjusted to the Statement of Profit & Loss. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Exchange Difference: The exchange difference arising on the settlement of monetary items or reporting these items at rates different from rates at which these were initially recorded, reported in previous financial statements are recognized as income/expense in the period in which they arise.

The Series A CCPS are issued with the following characteristics, including certain rights vested in the holders of the Series A CCPS which are in addition to, and without prejudice to, the other rights of the holders of the Series A CCPS set out in this Article.

1. **Equity Shares:** The number of Equity Shares to be issued to the holders of the Series A CCPS upon conversion shall, subject to the other terms and conditions set forth in this Articles, be as set out in Paragraph 3 below.
2. **Dividends:** The Series A CCPS shall carry a pre-determined cumulative dividend rate of 0.01% (zero point zero one percent) per annum. In addition, if the holders of Equity Shares are proposed to be paid dividend in excess of 0.01% (zero point zero one percent), the holders of the Series A CCPS shall be entitled to dividend at such higher rate. The dividend shall be payable, subject to cash flow solvency, in the event the Board declares any dividend for the relevant year, and shall be paid in priority to other classes of Shares.
3. **Conversion:**
 - a) The Series A CCPS shall be compulsorily converted to Equity Shares of the Company after the expiry of 19 (nineteen) years from the date of issuance of the same subject to the adjustments provided in Clause 8.11 of the SPA, and Paragraph 4 of this **SCHEDULE 2**, Clause 11 of the Agreement and other terms and conditions of the Agreement. The Series A Conversion Price shall be adjusted in accordance with Clause 8.11 of the SPA, and the terms specified under this Schedule and the Agreement. However, at any given point of time, the Series A Conversion Price shall not be adjusted to a price which is less than the fair market value of the Series A CCPS determined as on the date of issuance of the Series A CCPS. The adjusted Series A Conversion Price shall be construed as the relevant Series A Conversion Price for the purposes of the SPA, the Agreement and this Deed, and accordingly, the conversion ratio for the Series A CCPS shall be determined ("Series A Conversion Ratio"). Upon conversion of the Series A CCPS into Equity Share no fractional Share will be allotted by the Company, and the number of Equity Shares to be issued shall be rounded up to the nearest whole number.
 - b) The holders of the Series A CCPS shall, at any time prior to 19 (nineteen) years from the date of issuance of the same, but after expiry of at least 15 (fifteen) months from the Closing Date (as defined under the SPA), be entitled to call upon the Company to convert all or any of the Series A CCPS by issuing a notice to the Company accompanied by a share certificate representing the Series A CCPS sought to be converted ("Conversion Notice"). Immediately, and not later than 21 (twenty one) days from the receipt of such Conversion Notice, the Company shall issue Equity Shares in respect of the Series A CCPS sought to be converted. The record date of conversion of the Series A CCPS shall be deemed to be the date on which the holders of the Series A CCPS issue a Conversion Notice to the Company. The Series A CCPS, if not converted earlier, shall automatically convert into Equity Shares at the then applicable Series A Conversion Price, upon the earlier of the following: (i) the latest permissible date prior to the issue of Shares to the public in connection with the occurrence of a Public Offer under Applicable Law; or (ii) the day following the completion of 19 (nineteen) years from the date of issuance of the same.
 - c) Subject to the adjustments provided in Clause 8.11 of the SPA, Paragraph 4 of this **SCHEDULE 2** and Clause 11 of the Agreement, each Series A CCPS shall convert into 1 (one) Equity Share. Upon conversion of the Series A CCPS into Equity Share no fractional Share will be allotted by the Company, and the number of Equity Shares to be issued shall be rounded up to the nearest whole number.
4. **Adjustments:**
 - a) If, whilst any Series A CCPS remains capable of being converted into Equity Shares, the Company splits, sub-divides (stock split) or consolidates (reverse stock split) the Equity Shares into a different number of securities of the same class, the number of Equity Shares issuable upon a conversion of the Series A CCPS shall, subject to the Applicable Law and receipt of requisite approvals, be proportionately increased in the case of a split or

sub-division (stock split), and likewise, the number of Equity Shares issuable upon a conversion of the Series A CCPS shall be proportionately decreased in the case of a consolidation (reverse stock split).

- b) If, whilst any Series A CCPS remains capable of being converted into Equity Shares, the Company raises an indemnity claim on the holder of the Series A CCPS, as per Clause 8 of the SPA, the Series A Conversion Ratio for the conversion of the Series A CCPS shall be subject to Clause 8.11 of the SPA.
 - c) If, whilst any Series A CCPS remains capable of being converted into Equity Shares, the Company makes, or issues a dividend (other than dividend for cash) or other distribution of Equity Shares to the holders of Equity Shares, then the number of Equity Shares to be issued on any subsequent conversion of the Series A CCPS shall, subject to Applicable Law and receipt of requisite approvals, be increased proportionately and without payment of additional consideration therefor by the holders of the Series A CCPS.
 - d) If the Company, by re-classification or conversion of Shares or otherwise, changes any of the Equity Shares into the same or a different number of Shares of any other class or classes, the right to convert the Series A CCPS into Equity Shares shall thereafter represent the right to acquire such number and kind of Shares as would have been issuable as a result of such change with respect to the Equity Shares, that were subject to the conversion rights of the holders of the Series A CCPS immediately prior to the record date of such re-classification or conversion.
 - e) The holders of the Series A CCPS shall be entitled to the cumulative benefit of all adjustments referred to herein.
5. **Liquidation Preference:** In case of a Liquidation Event, the holders of the Series A CCPS shall have such liquidation preference as provided under Clause 10 of the Agreement.
 6. **Valuation Protection:** The holders of Series A CCPS shall be entitled to Valuation Protection Right as detailed under Clause 11 (*Valuation Protection*) of the Agreement.
 7. **Meeting and voting rights:** The holders of Series A CCPS shall be entitled to attend meetings of all Shareholders of the Company, and, will be entitled to such voting rights on an As If Converted Basis, as may be permissible under Applicable Law. Accordingly, but subject to adjustments as set forth herein, the holders of the Series A CCPS shall be entitled to the same number of votes for each Series A CCPS as a holder of 1 (one) Equity Share, *provided however*, that in the event of any adjustment in conversion, the number of votes associated with each Series A CCPS will change accordingly. The holders of the Series A CCPS shall be entitled to vote on all such matters which affects their rights directly or indirectly.
 8. **Amendment of Terms:** Notwithstanding anything contained in the Agreement: (i) Any amendment of the terms of the Series A CCPS; or (ii) waiver of any rights; that would adversely affect the rights of the holders of the Series A CCPS as contained in this **SCHEDULE 2** shall require the prior written consent of such Persons holding at least 75% (seventy five percent) of the holders of the Series A CCPS. Provided however any amendment or variation required to give effect to the provisions of Clause 8.11 of the SPA, shall not require the approval of any of the holders of the Series A CCPS. Each of the holders of the Series A CCPS expressly grants his/her/its consent to make any amendment or variation to give effect to the provisions of Clause 8.11 of the SPA.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group and its associate in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the Director's Report included in Annual Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. the Act. The respective Board of Directors of the companies included in the Group and its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the Companies included in the Group and of its associate are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associate are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF STRIDE FINTREE PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Stride Fintree Private Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2024, we have relied upon the report of the auditor of Stride One Capital Private Limited (hereinafter referred to as the "Subsidiary Company"), incorporated in India as noted in the 'Other Matter' paragraph to report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act. The report does not include report on the internal financial controls under clause (i) of sub section 3 of section 143 of the Act (the 'Report on Internal Financial Controls') for the holding company since in our opinion and according to information and explanation given to us, the said report on Internal Financial Controls is not applicable to the Holding Company basis the exemption available to companies under MCA Notification no. G.S.R. 583 (E) dated June 13, 2017 read with corrigendum dated July 13, 2017 on reporting on internal controls over financial reporting.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Subsidiary Company, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the subsidiary Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the subsidiary company policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Subsidiary Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the

maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the subsidiary company, which is a company incorporated in India, has, maintained in all material respects, adequate internal financial controls over financial reporting and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the subsidiary company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to subsidiary company, which is Company incorporated in India, is based on the corresponding reports of the auditor of such subsidiary incorporated in India.

2 Significant Accounting Policies
2.1.1 Basis of preparation of consolidated financial statements

The accompanying consolidated financial statements are prepared and presented in accordance with Indian Generally Accepted Accounting Principles ("Indian GAAP") under the historical cost convention, on the accrual basis of accounting, unless otherwise stated, and comply with the Accounting Standards as prescribed under Section 133 of the Companies Act, 2013 read together with Companies (Accounting Standards) Rules, 2021 and the Schedule III to the Act. The consolidated financial statements are presented in Indian Rupees (INR).

2.1.2 Principles of consolidation

The consolidated financial statements relate to Stride Fintree Private Limited (The Holding Company) and its Subsidiary Company (together 'the Group'). The consolidated financial statements have been prepared on the following basis:

- In respect of subsidiary enterprises, the financial statements have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after as far as possible eliminating intra-group balances and intra-group transactions resulting in unrealised profits or losses in accordance with Accounting Standard 21 - Consolidated Financial Statements.
- Investments in subsidiaries where control is intended to be temporary or where the objective of control over the subsidiary is not to obtain economic benefits there from, have not been consolidated.
- The share of minority interest in the net profit / loss of subsidiaries for the year is identified and adjusted against the income of the Group to arrive at the net income attributable to the Group.
- The share of minority interest in net assets of subsidiaries is identified and presented in the consolidated financial statements separate from liabilities and the equity of the Group.

The subsidiary companies considered in the presentation of the consolidated financial statements are:

Name of the Entity	Country of Corporation	Proportion of Ownership Interest
Stride One Capital Private Limited	India	100.00%
Stride Green Capital Private Limited	India	100.00%

2.2 Use of Estimates

The preparation of consolidated financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring an adjustment to the carrying amounts of assets or liabilities in the period in which they materialize.

2.3 Current/Non Current Classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Group's normal operating cycle;
 - it is held primarily for the purpose of being traded;
 - it is expected to be realised within 12 months after the reporting date; or
 - it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Group's normal operating cycle.
 - it is held primarily for the purpose of being traded.
 - it is due to be settled within 12 months after the reporting date; or
 - the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

2.4 Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of the purchase price and any attributable cost of bringing the assets to its working condition for its intended use.

Depreciation on property, plant and equipment is provided on the straight line based on the useful lives as specified in part 'C' of Schedule II of that Act.

Leasehold improvements are depreciated on straight line basis as per the management estimate of useful life of the asset or the period of lease, whichever is shorter.

Losses arising from retirement or gains/losses arising from disposal of fixed assets are recognised in the statements of Profit and Loss.

2.5 Intangible assets and amortisation

Intangible assets comprise of computer software purchased and application software built-in by the organisation (internally generated intangible assets). Computer software stated at acquisition cost less accumulated amortisation and impairment loss, if any.

With regards to internally generated intangible assets:

- expenditure on research activities undertaken with the prospect of gaining technical knowledge and understanding is recognised in the statement of profit & loss as incurred.
- Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use the asset.

Amortisation of intangible assets comprising computer software has been provided at written down value basis as per the life mentioned below, which in the opinion of the management represents the best estimate of useful life of these assets.

Intangible Asset	Estimated Useful Life
Application Software	5 Years

2.6 Goodwill

The goodwill arising on acquisition of a group of assets is not amortized and is tested for impairment if indicators of impairment exist.

2.7 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the consolidated financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.8 Revenue recognition

Arranger fees is recognized as per the terms of the agreement when the services are performed.

Revenue from financing activities is recognized on a time proportion basis taking into account the amount outstanding and applying the interest rate implicit in the contract.

Recovery of expenses is recognized as per the terms of the agreement.

Other fee income and other loan related charges are recognized only on generation of invoice.

2.9 Impairment

The carrying value of assets including Goodwill is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset, or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised. In respect of goodwill, the impairment loss will be reversed only when it was caused by specific external events of an exceptional nature that is not expected to recur and their effects have been reversed by subsequent external events.

2.10 Employee benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognized in the Statement of Profit and Loss in the period in which the employee renders the related service.

Post-employment benefits

Defined contributions plans

The Group's Employee's Provident Fund is a defined contribution plan. The Group's contribution paid/payable under the scheme is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

Defined benefit plans

The Group's gratuity benefit scheme is a defined benefit plan. The Group's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past service costs and the fair value of any plan assets are deducted. The calculation of the Group's obligation under the plan is performed annually by a qualified actuary using the projected unit credit method.

The Group recognizes all actuarial gains and losses arising from the defined benefit plan immediately in the Statement of Profit and Loss. All expenses related to the defined benefit plan are recognised in employee benefits expense in the Statement of Profit and Loss. When the benefits of a plan are improved, the portion of the increased benefit related to past service by employees is recognised in Statement of Profit and Loss on a straight-line basis over the average period until the benefits become vested. The Group recognizes gains and losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs.

2.11 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognised in Statement of Profit and Loss.

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

Opinion

We have audited the accompanying standalone financial statements of Stride Fintree Private Limited ("the Company"), which comprise the Balance sheet as at March 31 2024, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profits, its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's Report included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2021, specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the

standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Stride Fintree Private Limited**Notes to the financial statements for the year ended 31 March 2024***(All amounts in INR thousands unless stated otherwise)***1 Company overview**

Stride Fintree Private Limited ("the Company") was incorporated on August 31, 2020 with its registered office address as First Floor, E13/29, Harsha Bhawan, Connaught Place, New Delhi, Delhi, 110001. The Company is engaged in providing tech-driven access to credit and associated services, for small and micro businesses in the Startup ecosystem.

2 Significant Accounting Policies**2.1 Basis of preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013, read together with Companies (Accounting Standards) Rules, 2021. The financial statements have been prepared on an accrual basis and under the historical cost convention.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring an adjustment to the carrying amounts of assets or liabilities in the period in which they materialize.

2.3 Current – non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

2.4 Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of the purchase price and any attributable cost of bringing the assets to its working condition for its intended use.

Depreciation on property, plant and equipment is provided on the straight line value based on the useful lives as specified in part 'C' of Schedule II of that Act.

Leasehold improvements are depreciated on straight line basis as per the management estimate of useful life of the asset or the period of lease, whichever is shorter.

Losses arising from retirement or gains/losses arising from disposal of fixed assets are recognised in the statements of Profit and Loss.

2.5 Intangible assets and amortisation

Intangible assets comprise of computer software purchased and application software built-in by the organisation (internally generated intangible assets). Computer software stated at acquisition cost less accumulated amortisation and impairment loss, if any.

With regards to internally generated intangible assets:

- expenditure on research activities undertaken with the prospect of gaining technical knowledge and understanding is recognised in the statement of profit & loss as incurred.
- Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset.

Amortisation of intangible assets comprising computer software has been provided at written down value basis as per the life mentioned below, which in the opinion of the management represents the best estimate of useful life of these assets.

Intangible Asset	Estimated Useful Life
Application Software	5 Years

2.6 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

- Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.7 Revenue recognition

Arranger fees is recognized as per the terms of the agreement when the services are performed.

Revenue from interest on time deposits is recognised on the time proportion method taking into consideration the amount outstanding and the applicable interest rates.

Service Fee based income are recognised as per the terms of agreement when the services are performed.

Recovery of expenses is recognized as per the terms of the agreement .

2.8 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset, or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.9 Employee benefits

Short term employee benefits
All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognized in the Statement of Profit and Loss in the period in which the employee renders the related service.

2.9 Employee benefits (continued)

Post-employment benefits

Defined contributions plans

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plans

The company operates a defined benefit plans for its employees, viz., gratuity. The costs of providing benefits under the plans are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out for the plan using the projected unit credit method. Actuarial gains and losses for the defined benefit plan is recognized in full in the period in which they occur in the statement of profit and loss.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Employee stock option compensation cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

In accordance with Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

2.10 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognised in Statement of Profit and Loss.

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Lease payments under operating lease are recognized as an expense in the Statement of Profit and Loss account on straight line basis over the lease period.

According to the Scheme 2022, the employee selected by the board from time to time will be entitled to 10 to 100 options, subject to satisfaction of the prescribed vesting conditions, viz., continuing employment of 3 years. The contractual life (comprising the vesting period and the exercise period) of options granted is 3 to 5 years. The other relevant terms of the grant are as below:

Vesting period	1 to 3 years
Exercise period	2 years
Exercise price	INR 1158 to 6140

Movement during the year		
	For year ended 31 March 2024	For year ended 31 March 2023
	No. of Options	No. of Options

Outstanding at the end of the year	47,226	67,016
Exercisable at the end of the year	15,142	

* Does not include options granted to transferred employees.
The expected life of the stock is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.
The weighted average remaining contractual life for the stock options outstanding as at 31 March 2024 is 2.15 years (31 March 2023: 2.22 years). The range of exercise prices for options outstanding at the end of the year was 1,158.00 to 6,140.00 (31 March 2023: 1,158.00 to 4,275.00).

INDEPENDENT AUDITOR'S REPORT

To the Members of Stride One Capital Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Stride One Capital Private Limited ("the Company"), which comprise the Balance sheet as at March 31, 2024, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profits, its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's Report included in the Annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Director's report is not made available to us as at the date of this auditor's report. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect

to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2021 specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we

Identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure 2 referred to in paragraph 2(f) under the heading "Report on other legal and regulatory requirements" of our report of even date

Report on the Internal Financial Controls under Clause (l) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Stride One Capital Private Limited (the "Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

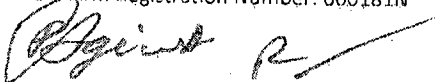

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

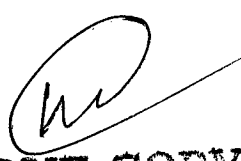

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Nevertheless, the implementation of the same needs an improvement in order to strengthen internal financial control and to make it more efficient and meaningful.

Stride One Capital Private Limited

Notes to the financial statements for the year ended 31 March 2024

(All amounts in INR thousands unless stated otherwise)

1 Company overview

Stride One Capital Private Limited (formerly known as Rising Straits Finance Private Limited) ('the Company') was incorporated in India on 09 December 1991 and had received Certificate of Registration from the Reserve Bank of India ("RBI") on October 2008 to commence/carry on the business of Non-Banking Financial Institution (NBFI) without accepting public deposits. The Company is in the business of providing business loans to small and micro businesses.

2 Significant accounting policies**2.1 Basis of preparation**

The financial statements have been prepared and presented under the historical cost convention, in accordance with the Generally Accepted Accounting Principles in ("Indian GAAP"), including the Companies (Accounting Standards) Rules, 2021 specified under Section 133 of the Companies Act, 2013 (the 'Act'), Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 vide Master Direction RBI/DoR/2023.24/106 - DoR.FIN.REC.No.45/03.10.119/2023-24 updated as on November 10, 2023 (the 'Master Direction') issued by the Reserve Bank of India, as amended and as applicable to the Company and the provisions of the Act, as adopted consistently by the Company.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amount of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future period.

2.3 Current – non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
 - it is held primarily for the purpose of being traded;
 - it is expected to be realised within 12 months after the reporting date; or
 - it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.
- All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
 - it is held primarily for the purpose of being traded;
 - it is due to be settled within 12 months after the reporting date; or
 - the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

2.4 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

Default interest income is recognised on receipt basis. Till the previous year, the Company has recognised default interest income on accrual basis. The said change has resulted in recognising default interest to Rs 31,522.49 thousands during the financial year. The company has been following its earlier policy of recording interest at accrual level, then the default interest income would have been amounted to Rs 39,155.41 thousands during the year. Consequently, profit before tax would have been amounted to Rs 1,54,649.79 thousands.

(All amounts in INR thousands unless stated otherwise)

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Employee stock option compensating cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

2.10 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognised in Statement of Profit and Loss.

Current tax is measured at the amount expected to be paid to the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted on the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.11 Earnings per share

Basic earnings per share are computed using the weighted average number of equity shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of equity and dilutive potential equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

2.12 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and cash in hand and bank deposits with an original maturity of three months or less.

Further, to regain the strength, the Demerged Company started Equipment Finance Undertaking whereby the Demerged Company provided loans for acquisition of machinery and equipments and generated better results as compared to the Business Loan Undertaking.

As there are differences in the approach of sourcing, underwriting and target segments of Business Loan Undertaking and Equipment Finance Undertaking, therefore, considering the fact that results in Equipment Finance Undertaking is better as compared to Business Loan Undertaking, management of the Demerged Company decided to focus on the Equipment Finance Undertaking solely and proposed to demerge its Business Loan Undertaking with and into the Resulting Company-2 which is, *inter-alia*, engaged in providing unsecured business loans to small and micro businesses.

Capitalized terms used but not defined in this Schedule II shall bear the meaning assigned to such terms in the Shareholders' Agreement dated November 28, 2022 ("Agreement") as entered by and amongst the Company, the Founders, and the Investor.

The Series A3 CCPS are issued with the following characteristics, including certain rights vested in the holders of the Series A3 CCPS which are in addition to, and without prejudice to, the other rights of the holders of the Series A3 CCPS set out in this Schedule II and as stated under Articles of Association of the Company.

1. **Equity Shares:** The number of Equity Shares to be issued to the holders of the Series A3 CCPS upon conversion shall, subject to the other terms and conditions set forth in this Articles, be as set out in Paragraph 3 below.
2. **Dividends:** The Series A3 CCPS shall carry a pre-determined cumulative dividend rate of 0.01% (zero point zero one percent) per annum. In addition, if the holders of Equity Shares are proposed to be paid dividend in excess of 0.01% (zero point zero one percent), the holders of the Series A3 CCPS shall be entitled to dividend at such higher rate. The dividend shall be payable, subject to cash flow solvency, in the event the Board declares any dividend for the relevant year, and shall be paid in priority to other classes of Shares.
3. **Conversion:**
 - a) The Series A3 CCPS shall be compulsorily converted to Equity Shares of the Company after the expiry of 19 (nineteen) years from the date of issuance of the same subject to the adjustments provided in paragraph 4 of this Schedule II and Clause 11 of the Agreement and other terms and conditions of the Agreement. The Series A3 Conversion Price shall be adjusted in accordance with the terms specified under this Schedule and the Agreement. However, at any given point of time, the Series A3 Conversion Price shall not be adjusted to a price which is less than the fair market value of the Series A3 CCPS determined as on the date of issuance of the Series A3 CCPS. The adjusted Series A3 Conversion Price shall be construed as the relevant Series A3 Conversion Price for the purposes of the Agreement and the Deed, and accordingly, the conversion ratio for the Series A3 CCPS shall be determined ("Series A3 Conversion Ratio"). Upon conversion of the Series A3 CCPS into Equity Share no fractional Share will be allotted by the Company, and the number of Equity Shares to be issued shall be rounded up to the nearest whole number.
 - b) The holders of the Series A3 CCPS shall, at any time prior to 19 (nineteen) years from the date of issuance of the same, be entitled to call upon the Company to convert all or any of the Series A3 CCPS by issuing a notice to the Company accompanied by a share certificate representing the Series A3 CCPS sought to be converted ("Conversion Notice"). Immediately, and not later than 21 (twenty one) days from the receipt of such Conversion Notice, the Company shall issue Equity Shares in respect of the Series A3 CCPS sought to be converted. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw your attention towards note number 3 and 4 of the Financial Statements, wherein it is mentioned that due to accumulated losses in the Company due to Covid, the Net Worth has been eroded and carried at a negative amount of Rs 46,969.14 thousand as a result the net owned funds have fallen below the limit of Rs 200 Lac as required by the Reserve Bank of India which is the requirement for holding the NBFC license. of the Company will be more satisfactory and company would be able to meet the minimum capital requirement as required by the Reserve Bank of India.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's

report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements that individually, or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited the internal financial controls over financial reporting of Blue Jay Finlease Private Limited (the "Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. CHARTERED ACCOUNTANTS**Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Due to inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Disclaimer of Opinion

According to the information and explanation given to us, the Company has not established its internal financial control over financial reporting on criteria based on or considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls over financial Reporting issued by the Institute of Chartered Accountants of India. Because of this reason, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion whether such internal financial controls over financial reporting and whether such internal financial controls were operating effectively as at March 31, 2024.

Material Weakness

Company is using Tally Accounting software for its non-banking transaction but there is no system of maker and checker which is required to satisfy adequacy of internal control system. Further, audit trail has not been enabled in accounting software used by the company.

A material weakness is a deficiency or a combination of deficiencies, in internal financial control over financial reporting, which confirms a reasonable possibility that a material misstatement of the company's annual financial statements may not be prevented or detected on timely basis.

CIN No. - U65910DL1996PLC083130. The Company received its certificate of registration no. B-14.01416, dated 16 July 2010 from the Reserve Bank of India under Section 45-IA of the Reserve Bank of India Act, 1934 to carry on the business of a non-banking financial institution. The Company is in the business of providing unsecured business loans to small and micro businesses.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements have been prepared and presented on going concern basis and under the historical cost convention, in accordance with the Generally Accepted Accounting Principles in India (GAAP), Non-Banking Financial Company- Non-Systemically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016 vide Master Direction DNBR, PD, 007/03, 10.119/2016-17 dated 1 September 2016 (the 'Master Direction') issued by the Reserve Bank of India, as amended from time to time and as applicable to the Company. The GAAP comprises mandatory accounting standards as specified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.3 Current - non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle.

- it is held primarily for the purpose of being traded.
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

2.4 Provision for standard assets and non-performing assets

Provisions for standard assets are created at 0.40% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Provisions for Sub-standard assets are created at 10% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Provisions for Doubtful assets are created at 100% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Assets Classification	Overdue (in days)	% of provision
Standard assets	0-90 days	0.40%
Sub-standard assets	91-630 days	10%
Doubtful Assets	Above 630 days	100%

2.5 Property, plant and equipment and depreciation

All property, plant and equipment are stated at historical cost less any accumulated depreciation. Cost includes original cost of acquisition and incidental expenses related to such acquisition upto the date of installation.

Depreciation on property, plant and equipment is provided on the written down value based on the useful lives as specified in part 'C' of Schedule II of that Act. Depreciation in case of additions is calculated on a pro-rata basis from the date of asset was capitalised. On assets sold, discarded, etc. during the year, depreciation is provided up to the actual date of sale.

Leasehold improvements are depreciated on straight line basis as per the management estimate of useful life of the asset or the period of lease, whichever is shorter.

Losses arising from retirement or gains/losses arising from disposal of property are measured as the difference between the net proceeds and the carrying amount of assets on date of disposal and are recognised in the Statements of Profit and Loss in the year of sale/disposal/retire.

The appropriateness of the aforesaid estimate of useful lives is reviewed by the management during the financial year.

2.6 Intangible assets and amortisation

Intangible assets comprise of computer software purchased and application software built in by the company (internally generated intangible assets). Computer software stated at acquisition cost less accumulated amortisation and impairment loss, if any.

With regards to internally generated intangible assets:

- Expenditure on research activities undertaken with the prospect of gaining technical knowledge and understanding is recognised in the statement of profit & loss as incurred.
- Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset.

Amortisation of intangible assets comprising computer software has been provided at straight-line basis as per the life mentioned below, which in the opinion of the management represents the best estimate of useful life of these assets.

Intangible Asset	Estimated useful life*
Computer software	3 Years
Application software	10 Years

* The appropriateness of amortisation is reviewed by the management during each financial year.

2.7 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.8 Revenue recognition

Interest income on loan assets is accounted for at agreed rate of interest as per the agreement on accrual basis except for non-performing assets, in respect of which income is recognised when received in accordance with the Master Direction of the RBI. No income is accrued on accounts delinquent for more than 90 days. Payments received on delinquent accounts are first applied towards overdue interest (Penal Charges) and then interest and balance to the principal amount.

Penal interest charged on delayed payments is recognized on realization basis.

Processing fee income is recognised on upfront basis. Other income are recognized on accrual basis.

Service fee income is calculated as per the co-lending arrangements and/or securitization agreements. However, the same are recognised on accrual basis.

Revenue from interest on deposits is recognised on the time proportion method taking into consideration the amount outstanding and the applicable interest rates.

2.9 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine

the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.10 Borrowing Cost

The borrowing costs which are directly attributable to the acquisition or construction of qualifying assets, which necessarily take a substantial period of time to get ready for their intended use, are capitalized as part of cost of the assets. All other borrowing costs are immediately recognized as an expense in the Statement of Profit and Loss.

2.11 Employee benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognized in the Statement of Profit and Loss in the period in which the employee renders the related service.

Post-employment benefits

Defined contributions plans

The Company's Employee's Provident Fund is a defined contribution plan. The Company's contribution paid/payable under the scheme is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

Defined benefit plans

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets, if any, are deducted. The calculation of the Company's obligation under the plan is performed annually by a qualified actuary using the projected unit credit method.

The Company recognizes all actuarial gains and losses arising from the defined benefit plan immediately in the Statement of Profit and Loss. All expenses related to the defined benefit plan are recognized in employee benefits expense in the Statement of Profit and Loss. When the benefits of a plan are improved, the portion of the increased benefit related to past service by employees is recognized in Statement of Profit and Loss on a straight-line basis over the average period until the benefits become vested. The Company recognizes gains and losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs.

Other long-term employee benefits - compensated absences

Benefits under compensated absences (arising during the tenure of the services and which are expected on post-employment) constitute other long-term employee benefits. The liability in respect of compensated absences is provided on the basis of an actuarial valuation done by an independent actuary at the year end. Actuarial gains and losses are recognized immediately in the Statement of Profit and Loss.

2.12 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognized in Statement of Profit and Loss.

Current Tax is measured and expected to be paid to the tax authorities in accordance with the provisions of the Income Tax Act, 1961, and based on the expected outcome of assessment/appeals. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current Income Tax relating to the items recognized directly in equity is recognized in equity and not in the Statement of Profit and Loss. The provisions of current tax is made after considering impact if any, of provisions contained in Income Computation Disclosure Standards (ICDS) issued by CBDT vide Notification No. 87/2016 dated September 29, 2016.

Deferred tax is recognized in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.13 Leases

Operating lease

Lease arrangements, where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognized as operating lease.

Lease payments under operating lease are recognized as an expense in the Statement of Profit and Loss account on straight line basis over the lease period on accrual basis.

2.14 Earnings per share

In determining earnings per share, the company considers the net profit after tax and includes the post-tax effect of any extra ordinary items, if any.

Basic earnings per share are computed by dividing the net profit or loss for the year attributable to equity shareholders by weighted average number of equity shares outstanding during the year.

For the purpose of calculating Diluted Earning per share, the number of shares comprises of weighted average shares considered for deriving basic earning per share and also the weighted average number of equity share which could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. A transaction is considered to be antidilutive if its effect is to increase the amount of EPS, either by lowering the share count or increasing the earnings.

2.15 Foreign currency transactions

Initial Recognition: The transactions in foreign currency are initially accounted for at the rate prevailing as on the transaction date.

Conversion: The monetary items denominated in the foreign currency are stated at the exchange rate prevailing at the year end and the overall net gain/ (loss) is adjusted to the Statement of Profit & Loss. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Exchange Difference: The exchange difference arising on the settlement of monetary items or reporting these items at rates different from rates at which these were initially recorded, reported in previous financial statements are recognized as income/expense in the period in which they arise.

Report on the Audit of the Standalone Financial Statements**Opinion**

We have audited the accompanying standalone financial statements of Stride Fintree Private Limited ("the Company"), which comprise the Balance sheet as at March 31, 2024, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profits, its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's Report included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2021, specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the

standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Stride Fintree Private Limited

Notes to the financial statements for the year ended 31 March 2024

(All amounts in INR thousands unless stated otherwise)

1 Company overview

Stride Fintree Private Limited ("the Company") was incorporated on August 31, 2020 with its registered office address as First Floor, E13/29, Harsha Bhawan, Connaught Place, New Delhi, Delhi, 110001. The Company is engaged in providing tech-driven access to credit and associated services, for small and micro businesses in the Startup ecosystem.

2 Significant Accounting Policies

2.1 Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013, read together with Companies (Accounting Standards) Rules, 2021. The financial statements have been prepared on an accrual basis and under the historical cost convention.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring an adjustment to the carrying amounts of assets or liabilities in the period in which they materialize.

2.3 Current – non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

2.4 Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of the purchase price and any attributable cost of bringing the assets to its working condition for its intended use.

Depreciation on property, plant and equipment is provided on the straight line value based on the useful lives as specified in part 'C' of Schedule II of that Act.

Leasehold improvements are depreciated on straight line basis as per the management estimate of useful life of the asset or the period of lease, whichever is shorter.

Losses arising from retirement or gains/losses arising from disposal of fixed assets are recognised in the statements of Profit and Loss.

TRUE COPY

2.5 Intangible assets and amortisation

Intangible assets comprise of computer software purchased and application software built-in by the organisation (internally generated intangible assets). Computer software stated at acquisition cost less accumulated amortisation and impairment loss, if any.

With regards to internally generated intangible assets:

- expenditure on research activities undertaken with the prospect of gaining technical knowledge and understanding is recognised in the statement of profit & loss as incurred
- Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset.

Amortisation of intangible assets comprising computer software has been provided at written down value basis as per the life mentioned below, which in the opinion of the management represents the best estimate of useful life of these assets.

Intangible Asset	Estimated Useful Life
Application Software	5 Years

2.6 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.7 Revenue recognition

Arranger fees is recognized as per the terms of the agreement when the services are performed.

Revenue from interest on time deposits is recognised on the time proportion method taking into consideration the amount outstanding and the applicable interest rates.

Service fee based income are recognised as per the terms of agreement when the services are performed.

Recovery of expenses is recognized as per the terms of the agreement.

2.8 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset, or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.9 Employee benefits

Short term employee benefit
All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

191

2.9 Employee benefits (continued)

Post-employment benefits

Defined contribution plans

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plans

The company operates a defined benefit plans for its employees, viz., gratuity. The costs of providing benefits under the plans are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out for the plan using the projected unit credit method. Actuarial gains and losses for the defined benefit plan is recognized in full in the period in which they occur in the statement of profit and loss.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Employee stock option compensation cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

In accordance with Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the maximum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

2.10 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognised in Statement of Profit and Loss.

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Lease payments under operating lease are recognized as an expense in the Statement of Profit and Loss account on straight line basis over the lease period.

2.12 Earnings per share

Basic earnings per share are computed using the weighted average number of equity shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of equity and dilutive potential equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

financing, to support their growth and expansion objectives i.e., Business Loan Undertaking; and

- (ii) providing secured loans for acquisition of machinery and equipments i.e., Equipment Finance Undertaking.

The COVID-19 pandemic had significantly affected the Business Loan Undertaking of the Demerged Company as a result of which the Demerged Company faced unprecedented challenges including increased risk in default, increased non-performing assets, tightening of the lending standards, liquidity constraints etc. which resulted in losses to the Demerged Company.

In order to address the situation, certain loans that were deemed uncollectible or irrecoverable were written off from the books of the Demerged Company and the focus of the Demerged Company increased more on collections and recoveries.

Further, to regain the strength, the Demerged Company started the Equipment Finance Undertaking whereby the Demerged Company provided loans for acquisition of machinery and equipments and generated better results as compared to the Business Loan Undertaking.

As there are differences in the approach of sourcing, underwriting and target segments of Business Loan Undertaking and Equipment Finance Undertaking, therefore, considering the fact that results in Equipment Finance Undertaking is better as compared to Business Loan Undertaking, management of the Demerged Company decided to focus on the Equipment Finance Undertaking solely and proposed to demerge its Business Loan Undertaking with and into the Resulting Company-2 which is, *inter-alia*, engaged in providing unsecured business loans to small and micro businesses.

The proposed demerger of Business Loan Undertaking of the Demerged Company with and into the Resulting Company-2 is expected to achieve the following benefits:

- (b) To enable the Demerged Company to focus and enhance its Equipment Finance Undertaking operations by streamlining operations and consequently, ensuring better and more efficient management and business development.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's Report included in the Annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

The Director's report is not made available to us as at the date of this auditor's report. We have nothing to report in this regard.

to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2021 specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

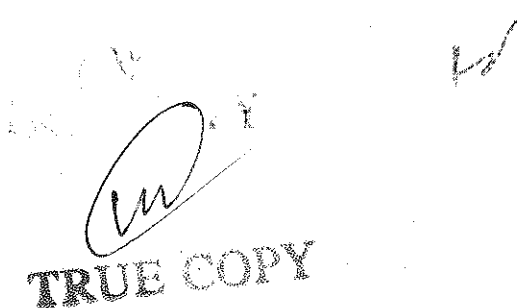

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we

identify during our audit.

Annexure 2 referred to in paragraph 2(f) under the heading "Report on other legal and regulatory requirements of our report of even date"

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Stride One Capital Private Limited (the "Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

CHARTERED ACCOUNTANTS**Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

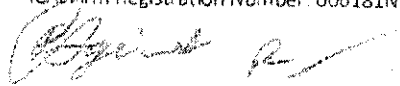

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Nevertheless, the implementation of the same needs an improvement in order to strengthen internal financial control and to make it more efficient and meaningful.

- it is expected to be settled in the Company's normal operating cycle;
 - it is held primarily for the purpose of being traded;
 - it is due to be settled within 12 months after the reporting date; or
 - the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

2.4 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.5 Revenue recognition

The Company has recognized all incomes on accrual basis except default interest income is recognized on receipt basis. Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and revenue can be reliably measured. The following specific recognition criterion must also be met before revenue is recognized:

Interest income from financing activities is recognized on a time proportion basis taking into account the amount outstanding and applying the interest rate stipulated in the contract.

Default interest income is recognized on receipt basis. Till the previous year, the Company has recognized default interest income on accrual basis. In the current year, the Company has changed its accounting policy of recording default interest from accrual basis to receipt basis. The said change has resulted in recognizing default interest to Rs 31,522.49 thousands during the financial year. The company has been following its earlier policy of recording interest on accrual basis, then the default interest income would have been amounted to Rs 32,155.41 thousands during the year. Consequently, profit before tax would have been amounted to Rs 1,54,649.79 thousands.

Interest income from Revenue Based Finance activities is recognized as per the multiple implicit in the contract after collection of complete principal amount disbursed.

Other fee income and other loan related charges are recognized only at generation of invoice.

2.6 Finance cost

The Company has recognized finance cost on borrowings on accrual basis.

Processing fee on borrowings paid upfront is recognized as cost on a time proportion basis over the tenure of the loan. The unamortised balance is disclosed as part of other current asset/ non current assets.

2.7 Other expenses

Other expenses are recognized on accrual basis. Expense allocation received from other companies, in cost for sharing common services and facilities are included within respective expense lines.

2.8 Provision for standard assets and non-performing assets

Assets with DPD (days past due) upto 90 days are considered as Standard Assets as per in accordance with the Master Directions issued by RBI.

Assets with DPD (days past due) more than 90 days are considered as non-performing Assets as per in accordance with the Master Directions issued by RBI.

Contingent provisions for standard assets and provision on non-performing assets is created on carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

2.9 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset, or its cash-generating unit, exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.10 Employee benefits

Short-term employee benefits

All employee benefits payable wholly within a twelve-month period of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus are recognized in the Statement of Profit and Loss in the period in which the employee renders the related service.

Post-employment benefits

Defined contribution plans

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payments or a cash refund.

Defined benefit plan

The company operates a defined benefit plan for its employees, viz., gratuity. The costs of providing benefits under the plans are determined on the basis of actuarial valuation at each year end. Actuarial valuation is carried out for the plan using the projected unit credit method. Actuarial gains and losses for the defined benefit plan is recognized in full in the period in which they occur in the statement of profit and loss.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absence as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Employer stock option compensation cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity settled transactions).

In accordance with Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

2.10 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognized in Statement of Profit and Loss.

Current tax is measured at the amount expected to be paid to the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted on the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.11 Earnings per share

Basic earnings per share are computed using the weighted average number of equity shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of equity and dilutive potential equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

2.12 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and cash in hand and bank deposits with an original maturity of three months or less.

financing, to support their growth and expansion objectives i.e., Business Loan Undertaking; and

- (ii) providing secured loans for acquisition of machinery and equipments i.e., Equipment Finance Undertaking.

The COVID-19 pandemic had significantly affected the Business Loan Undertaking of the Demerged Company as a result of which the Demerged Company faced unprecedented challenges including increased risk in default, increased non-performing assets, tightening of the lending standards, liquidity constraints etc. which resulted in losses to the Demerged Company.

In order to address the situation, certain loans that were deemed uncollectible or irrecoverable were written off from the books of the Demerged Company and the focus of the Demerged Company increased more on collections and recoveries.

Further, to regain the strength, the Demerged Company started the Equipment Finance Undertaking whereby the Demerged Company provided loans for acquisition of machinery and equipments and generated better results as compared to the Business Loan Undertaking.

As there are differences in the approach of sourcing, underwriting and target segments of Business Loan Undertaking and Equipment Finance Undertaking, therefore, considering the fact that results in Equipment Finance Undertaking is better as compared to Business Loan Undertaking, management of the Demerged Company decided to focus on the Equipment Finance Undertaking solely and proposed to demerge its Business Loan Undertaking with and into the Resulting Company-2 which is, *inter-alia*, engaged in providing unsecured business loans to small and micro businesses.

The proposed demerger of Business Loan Undertaking of the Demerged Company with and into the Resulting Company-2 is expected to achieve the following benefits:

- (a) Consolidation of business of unsecured business loans to micro, small and medium enterprises with and into the Resulting Company-2 which is engaged in similar line of business, leading to better administration and reduction in operational cost due to synergy in operations; and rationalization, standardization and simplification of business process.
- (b) To enable the Demerged Company to focus and enhance its Equipment Finance Undertaking operations by streamlining operations and consequently, ensuring better and more efficient management and business development.

PROCEDURE ADOPTED AND VALUATION METHOD(S) FOLLOWED FOR THE ASSIGNMENT

1. APPROACH CONSIDERED IN OUR VALUE ANALYSIS

General Principle for Valuation

There is no single definition of the term 'Value' that is suitable for all purposes or at all times. The value of a particular asset may vary according to different valuation methodologies that are adopted to ascertain the value for a specific purpose. Valuation of securities is an inexact science. It may sometimes involve a set of judgments and assumptions that may be subject to certain uncertainties.

Selection of Valuation Methodology

The objective of the valuation process is to make a best reasonable judgment of the value of the shares of the Company. There are a number of valuation methodologies to value companies / businesses using historical and forecast financials of the company. Commonly used valuation methodologies are as follows:

1. Net Asset Value (NAV) Method

In Net Asset Value (NAV) Method, the assets and liabilities are considered at realizable value or book value, including intangible assets and contingent liabilities, if any, which are not stated in the balance sheet. From the value of the assets, the potential liabilities which would have to be paid would be deducted and resultant figure is the NAV of the company.

This valuation approach is mainly used in case where the asset base dominates the earnings capability or in a case where the valuing entity is a holding company deriving significant value from its assets and investments. NAV Method is most applicable for the business where the value lies in the

underlying assets or in cases where the ongoing operations of the business and the potential future cash flows of the business cannot be reasonably estimated or where the operations / business of an entity is discontinued. In the present instance, Companies have going on business operations, therefore, we have not considered the NAV method to calculate the value of equity share of Companies.

✱ **Discounted Cash Flow (DCF) Method**

The Income Method focuses on the profit/earnings potential of the business being valued. The Income Method of valuation includes Discounted Cash Flow ("DCF") Method which has been discussed hereinafter.

Under DCF Method, the free cash flows attributable to the firm for a predetermined number of future years and perpetuity are considered and discounted to their present value. The free cash flows attributable to the firm are the cash flows from operating activities as reduced by the estimated/ planned capital expenditure and working capital requirement in each of the future years.

The cash flow projections, the estimations of capital expenditure and working capital requirement are based on the management's view of the future business prospects of the company and the anticipated economic conditions in relation to the industry in which the company operates.

In the present instance, Companies have on going business operations. Accordingly, the Management of Companies has provided the future projections. Therefore, the discounted cash flow approach has been applied for the purpose of valuation of Companies.

✱ **Market Price Method**

The market price of an equity share quoted on a stock exchange is normally considered as the value of equity share of the Company, if such shares are frequently traded subject to speculative support that may be inbuilt in the value of such shares. Equity Shares of the Companies are not traded on any stock exchanges and therefore, Market Price Method is not relevant for the present valuation exercise. Hence, we have not considered this method for the valuation.

*** Comparable Company Multiples (CCM) Method**

Under the Comparable Companies Multiple Method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation method is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. The base(s) to which a multiple is commonly applied include sales, EBITDA, cash flows and book value.

The Companies has less or nil revenue. Given this and the non-comparability with listed companies, this method has not been used to calculate the fair value of equity shares of the Companies.

II. Basis for arriving at Swap Ratio

Based on the discussions in the preceding paragraphs w.r.t valuation methodologies as well as regulatory requirements, we have determined appropriate value of the Demerged Undertaking and Series A3 CCPS of SFPL based on the methodology of Discounted Cash flow Method.

III. VALUATION OF EQUITY SHARES

statement for the period from Financial year 2023-24 (3 Months) to Financial year 2027-28 ("explicit period") as provided to us by the Management.

For the explicit period, free cash flows from the business have been arrived at as follows:

- Profits after Tax as per the projections have been considered.
- Depreciation & amortization on fixed assets have been added.
- Fund requirements for incremental working capital and capital expenditure have been reduced from the cash earnings of the respective years.
- The cash flows of each year are then discounted at the Adjusted Weighted Average Cost of Capital (WACC). WACC is considered as the most appropriate discount rate in the DCF Method, since it reflects both the business and the financial risk of the Company. In other words, WACC is the weighted average of the firm's cost of equity and debt. The WACC is worked out using the following parameters:

• Cost of Equity is worked out using the following formula:

- Risk Free Return + (Beta x Equity Risk Premium) + Company specific premium;
- The risk free rate of return is taken at 7.07% based on Indian government bond rate for 10 years – source, (<https://countryeconomy.com/bonds/india?dr=2024-02>).
- Industry leveraged Beta is considered as 1.00 since we don't have any exact comparable listed company.
- Based on qualitative analysis of long term, equity risk premium, expected premium is arrived – source, CAGR of BSE Sensex S&P 500 from 1st February, 1999 to 29th February, 2024 i.e. 7.71 % - Source: www.bseindia.com;
- Company specific premium of 5% has been considered based on size of SFPL and past profit history of SFPL;
- Based on the above, the Cost of Equity is determined to be 19.78 %.

- After the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity value is also considered to arrive at the enterprise value. For arriving at the perpetuity value, we have considered a growth rate of 5.0% based on management estimate.
- Cash flows for perpetuity have been arrived at after considering the corporate taxes, estimated capital expenditure and incremental working capital requirements.
- The discounted perpetuity value is added to the discounted cash flows for the explicit period to arrive at the enterprise value.
- Appropriate adjustments have been made for cash and cash equivalents to arrive at the Equity Value.
- Since SFPL is an unlisted company, discount for lack of marketability has been considered at the rate of 15% on the Equity Value.
- The value so arrived is divided by the outstanding number of equity shares, CCPS and ESOPs on fully diluted basis as on the date of this report to arrive at the value per share.

6. Relationship between the Companies involved in the present Scheme:

Resulting Company-1 is holding the entire equity share capital of the Resulting Company-2 i.e., Resulting Company-2 is a wholly owned subsidiary of the Resulting Company-1. Further, Resulting Company-1 is a shareholder of the Demerged Company.

7. The salient features of the Rationale of the Scheme are set out hereunder:

A. Rationale of the Scheme: The proposed Scheme amongst the Companies will enable the following:

The Demerged Company is, *inter-alia*, engaged in the business of

- providing timely and accessible unsecured business loans to micro, small and medium enterprises (MSMEs) through digital online mode, co-lending in partnership with banks and other financial institutions; working capital financing and material procurement financing, to support their growth and expansion objectives i.e., Business Loan Undertaking; and
- providing secured loans for acquisition of machinery and equipments i.e., Equipment Finance Undertaking

The COVID-19 pandemic had significantly affected the Business Loan Undertaking of the Demerged Company as a result of which the Demerged Company faced unprecedented challenges including increased risk in default, increased non-performing assets, tightening of the lending standards, liquidity constraints etc. which resulted in losses to the Demerged Company.

In order to address the situation, certain loans that were deemed uncollectible or irrecoverable were written off from the books of the Demerged Company and the focus of the Demerged Company increased more on collections and recoveries.

Further, to regain the strength, the Demerged Company started Equipment Finance Undertaking whereby the Demerged Company provided loans for acquisition of machinery and equipments and generated better results as compared to the Business Loan Undertaking.

As there are differences in the approach of sourcing, underwriting and target segments of Business Loan Undertaking and Equipment Finance Undertaking, therefore, considering the fact that results in

Equipment Finance Undertaking is better as compared to Business Loan Undertaking, management of the Demerged Company decided to focus on the Equipment Finance Undertaking solely and proposed to demerge its Business Loan Undertaking with and into the Resulting Company-2 which is, *inter-alia*, engaged in providing unsecured business loans to small and micro businesses.

The proposed demerger of Business Loan Undertaking of the Demerged Company with and into the Resulting Company-2 is expected to achieve the following benefits:

- (a) Consolidation of business of unsecured business loans to micro, small and medium enterprises with and into the Resulting Company-2 which is engaged in similar line of business, leading to better administration and reduction in operational cost due to synergy in operations, and rationalization, standardization and simplification of business process.
- (b) To enable the Demerged Company to focus and enhance its Equipment Finance Undertaking operations by streamlining operations and consequently, ensuring better and more efficient management and business development.
- (c) Creating opportunities for pursuing independent growth and expansion strategies in segregated businesses.
- (d) Increasing efficiency in management, control and administration of the affairs of the Companies.
- (e) Enhancing operational efficiencies, ensuring synergies through pooling of the financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies.

The Consideration (as defined in Clause 23 of the Scheme) for transfer and vesting of Demerged Undertaking (as defined in the Scheme) with and into the Resulting Company-2 in terms of the Scheme shall be discharged by Resulting Company-1 since -

- (a) Resulting Company-1 is holding the entire share capital of the Resulting Company-2, and therefore, having deep commercial interest in Resulting Company-2.
 - (b) the business of Resulting Company-1 is inextricably linked with the business of Resulting Company-2 so much, so that Resulting Company-2 cater to the funding requirement of the clients of Resulting Company-1.
 - (c) Resulting Company-1 has higher equity value in comparison to Resulting Company-2 and the initial public offer has also been projected in Resulting Company-1.
 - (d) for the business of Resulting Company-2, Resulting Company-1 provide tech platform for Resulting Company-2's borrowers, generate leads, etc. while Resulting Company-2, only source the borrowers by providing them the business loans.

Capitalized terms used but not defined in this Schedule II shall bear the meaning assigned to such terms in the Shareholders' Agreement dated November 28, 2022 ("Agreement") as entered by and amongst the Company, the Founders, and the Investor.

The Series A3 CCPS are issued with the following characteristics, including certain rights vested in the holders of the Series A3 CCPS which are in addition to, and without prejudice to, the other rights of the holders of the Series A3 CCPS set out in this Schedule II and as stated under Articles of Association of the Company.

2. **Dividends:** The Series A3 CCPS shall carry a pre-determined cumulative dividend rate of 0.01% (zero point zero one percent) per annum. In addition, if the holders of Equity Shares are proposed to be paid dividend in excess of 0.01% (zero point zero one percent), the holders of the Series A3 CCPS shall be entitled to dividend at such higher rate. The dividend shall be payable, subject to cash flow solvency, in the event the Board declares any dividend for the relevant year, and shall be paid in priority to other classes of Shares.
3. **Conversion:**
 - a) The Series A3 CCPS shall be compulsorily converted to Equity Shares of the Company after the expiry of 19 (nineteen) years from the date of issuance of the same subject to the adjustments provided in paragraph 4 of this Schedule II and Clause 11 of the Agreement and other terms and conditions of the Agreement. The Series A3 Conversion Price shall be adjusted in accordance with the terms specified under this Schedule and the Agreement. However, at any given point of time, the Series A3 Conversion Price shall not be adjusted to a price which is less than the fair market value of the Series A3 CCPS determined as on the date of issuance of the Series A3 CCPS. The adjusted Series A3 Conversion Price shall be construed as the relevant Series A3 Conversion Price for the purposes of the Agreement and the Deed, and accordingly, the conversion ratio for the Series A3 CCPS shall be determined ("Series A3 Conversion Ratio"). Upon conversion of the Series A3 CCPS into Equity Share no fractional Share will be allotted by the Company, and the number of Equity Shares to be issued shall be rounded up to the nearest whole number.
 - b) The holders of the Series A3 CCPS shall, at any time prior to 19 (nineteen) years from the date of issuance of the same, be entitled to call upon the Company to convert all or any of the Series A3 CCPS by issuing a notice to the Company accompanied by a share certificate representing the Series A3 CCPS sought to be converted ("Conversion Notice"). Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under these Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw your attention towards note number 3 and 4 of the Financial Statements, wherein it is mentioned that due to accumulated losses in the Company due to Covid, the Net Worth has been eroded and carried at a negative amount of Rs 46,969.14 thousand as a result the net owned funds have fallen below the limit of Rs 200 Lac as required by the Reserve Bank of India which is the requirement for holding the NBFC license. of the Company will be more satisfactory and company would be able to meet the minimum capital requirement as required by the Reserve Bank of India.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's

report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements that individually, or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Blue Jay Finlease Private Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of subsection 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of Blue Jay Finlease Private Limited (the "Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Due to inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Disclaimer of Opinion

According to the information and explanation given to us, the Company has not established its internal financial control over financial reporting on criteria based on or considering the essential components of internal control stated in the Guidance Note on the Audit of Internal Financial Controls over financial Reporting issued by the Institute of Chartered Accountants of India. Because of this reason, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion whether such internal financial controls over financial reporting and whether such internal financial controls were operating effectively as at March 31, 2024.

Material Weakness

Company is using Tally Accounting software for its non-banking transaction but there is no system of maker and checker which is required to satisfy adequacy of internal control system. Further, audit trail has not been enabled in accounting software used by the company.

A material weakness is a deficiency or a combination of deficiencies, in internal financial control over financial reporting, which confirms a reasonable possibility that a material misstatement of the company's annual financial statements may not be prevented or detected on timely basis.

 PPD.03/66.15.001/2016-17 dated September 29, 2016 (referred as the "RBI Master
 Directions") with reference to position as on March 31, 2024

The Board of Directors
 Blue Jay Finlease Private Limited

Management's Responsibility

This responsibility includes the design, implementation and maintenance of internal control relevant to preparation and presentation of the financial statements and making estimates that are reasonable in the circumstances.

Auditor's Responsibility

1. The audited financial statements of the Company as on March 31, 2024 and for the year then ended, have been audited by us, on which we issued an unmodified audit opinion vide our report dated June 30th, 2024. Our audit of these financial statements was conducted in accordance with the Standards on Auditing and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India ("ICAI"). Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.
2. We have conducted our audit of the financial statements in accordance with Standards on Auditing (SAs) and ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.
3. Further, we report that the company is holding a Certificate of Registration issued by the Reserve Bank of India. However, due to continuing losses over the years, the accumulated losses have eroded the entire share capital of the company and as a result, the net owned funds of the company have fallen below the limit of Rs 200 lacs which is the requirement for holding the said license. The amounts of losses, and erosion of share capital has been adequately disclosed in the financial statements and our opinion is not modified on the said matter. As informed to us, the Company has been undergoing a demerger process, wherein the loan business unit will be merged with another entity Stride One Capital Pvt Ltd (an RBI registered NBFC). The Company has duly obtained NOC from the Reserve Bank of India dated 21st June, 2023 for the said merger and application is already filed with National Company Law Tribunal (NCLT) dated 28th March, 2024 and is pending approval. As informed to us and as per the management, post the said demerger the Company would be able to meet minimum capital requirement of INR 200 lacs as required by the Reserve Bank of India

The Company is in the business of providing unsecured business loans to small and micro businesses.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements have been prepared and presented on going concern basis and under the historical cost convention, in accordance with the Generally Accepted Accounting Principles in India (GAAP), Non-Banking Financial Company- Non-Systemically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016 vide Master Direction DNBR, PD. 007/03.10.119/2016-17 dated 1 September 2016 (the 'Master Direction') issued by the Reserve Bank of India, as amended from time to time and as applicable to the Company. The GAAP comprises mandatory accounting standards as specified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.3 Current - non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle.

- It is held primarily for the purpose of being traded.
- It is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

2.4 Provision for standard assets and non-performing assets

Provisions for standard assets are created at 0.40% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Provisions for Sub-standard assets are created at 10% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Provisions for Doubtful assets are created at 100% of the carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

Assets Classification	Overdue (in days)	% of provision
Standard assets	0-90 days	0.40%
Sub-standard assets	91-630 days	10%
Doubtful Assets	Above 630 days	100%

2.5 Property, plant and equipment and depreciation

All property, plant and equipment are stated at historical cost less any accumulated depreciation. Cost includes original cost of acquisition and incidental expenses related to such acquisition upto the date of installation.

Depreciation on property, plant and equipment is provided on the written down value based on the useful lives as specified in part 'C' of Schedule II of that Act. Depreciation in case of additions is calculated on a pro-rata basis from the date of asset was capitalised. On assets sold, discarded, etc. during the year, depreciation is provided up to the actual date of sale.

Leasehold improvements are depreciated on straight line basis as per the management estimate of useful life of the asset or the period of lease, whichever is shorter.

Losses arising from retirement or gains/losses arising from disposal of property are measured as the difference between the net proceeds and the carrying amount of assets on date of disposal and are recognised in the Statements of Profit and Loss in the year of sale/disposal/retire.

The appropriateness of the aforesaid estimate of useful lives is reviewed by the management during the financial year.

2.6 Intangible assets and amortisation

Intangible assets comprise of computer software purchased and application software built-in by the company (internally generated intangible assets). Computer software stated at acquisition cost less accumulated amortisation and impairment loss, if any.

With regards to internally generated intangible assets:

- Expenditure on research activities undertaken with the prospect of gaining technical knowledge and understanding is recognised in the statement of profit & loss as incurred.
- Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset.

Amortisation of intangible assets comprising computer software has been provided at straight-line basis as per the life mentioned below, which in the opinion of the management represents the best estimate of useful life of these assets.

Intangible Asset	Estimated useful life*
Computer software	3 Years
Application software	10 Years

* The appropriateness of amortisation is reviewed by the management during each financial year.

2.7 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.8 Revenue recognition

Interest income on loan assets is accounted for at agreed rate of interest as per the agreement on accrual basis except for non-performing assets, in respect of which income is recognised when received in accordance with the Master Direction of the RBI. No income is accrued on accounts delinquent for more than 90 days. Payments received on delinquent accounts are first applied towards overdue interest (Penal Charges) and then interest and balance to the principal amount.

Penal interest charged on delayed payments is recognized on realization basis.

Processing fee income is recognised on upfront basis. Other income are recognized on accrual basis.

Service fee income is calculated as per the co-lending arrangements and/or securitization agreements. However, the same are recognised on accrual basis.

Revenue from interest on deposits is recognised on the time proportion method taking into consideration the amount outstanding and the applicable interest rates.

2.9 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine

the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.10 Borrowing Cost

The borrowing costs which are directly attributable to the acquisition or construction of qualifying assets, which necessarily take a substantial period of time to get ready for their intended use, are capitalized as part of cost of the assets. All other borrowing costs are immediately recognized as an expense in the Statement of Profit and Loss.

2.11 Employee benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognized in the Statement of Profit and Loss in the period in which the employee renders the related service.

Post-employment benefits

Defined contributions plans

The Company's Employee's Provident Fund is a defined contribution plan. The Company's contribution paid/payable under the scheme is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

Defined benefit plans

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets, if any, are deducted. The calculation of the Company's obligation under the plan is performed annually by a qualified actuary using the projected unit credit method.

The Company recognizes all actuarial gains and losses arising from the defined benefit plan immediately in the Statement of Profit and Loss. All expenses related to the defined benefit plan are recognized in employee benefits expense in the Statement of Profit and Loss. When the benefits of a plan are improved, the portion of the increased benefit related to past service by employees is recognized in Statement of Profit and Loss on a straight-line basis over the average period until the benefits become vested. The Company recognizes gains and losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs.

Other long-term employee benefits - compensated absences

Benefits under compensated absences (arising during the tenure of the services and which are expected on post-employment) constitute other long-term employee benefits. The liability in respect of compensated absences is provided on the basis of an actuarial valuation done by an independent actuary at the year end. Actuarial gains and losses are recognized immediately in the Statement of Profit and Loss.

2.12 Income taxes

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income tax expense is recognized in Statement of Profit and Loss.

Current Tax is measured and expected to be paid to the tax authorities in accordance with the provisions of the Income Tax Act, 1961, and based on the expected outcome of assessment/appeals. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current Income Tax relating to the items recognized directly in equity is recognized in equity and not in the Statement of Profit and Loss. The provisions of current tax is made after considering impact if any, of provisions contained in Income Computation Disclosure Standards (ICDS) issued by CBDT vide Notification No. 87/2016 dated September 29, 2016.

Deferred tax is recognized in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.13 Leases

Operating lease

Lease arrangements, where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognized as operating lease.

Lease payments under operating lease are recognized as an expense in the Statement of Profit and Loss account on straight line basis over the lease period on accrual basis.

2.14 Earnings per share

In determining earnings per share, the company considers the net profit after tax and includes the post-tax effect of any extra ordinary items, if any.

Basic earnings per share are computed by dividing the net profit or loss for the year attributable to equity shareholders by weighted average number of equity shares outstanding during the year.

For the purpose of calculating Diluted Earning per share, the number of shares comprises of weighted average shares considered for deriving basic earning per share and also the weighted average number of equity share which could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. A transaction is considered to be antidilutive if its effect is to increase the amount of EPS, either by lowering the share count or increasing the earnings.

2.15 Foreign currency transactions

Initial Recognition: The transactions in foreign currency are initially accounted for at the rate prevailing as on the transaction date.

Conversion: The monetary items denominated in the foreign currency are stated at the exchange rate prevailing at the year end and the overall net gain/ (loss) is adjusted to the Statement of Profit & Loss. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Exchange Difference: The exchange difference arising on the settlement of monetary items or reporting these items at rates different from rates at which these were initially recorded, reported in previous financial statements are recognized as income/expense in the period in which they arise.

~~178~~**INDEPENDENT AUDITOR'S REPORT**

To the Members of Stride Fintree Private Limited

Report on the Audit of the Standalone Financial Statements**Opinion**

We have audited the accompanying standalone financial statements of Stride Fintree Private Limited ("the Company"), which comprise the Balance sheet as at March 31, 2024, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profits, its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's Report included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2021, specified under section 133 of the Act. standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Stride Fintree Private Limited**Notes to the financial statements for the year ended 31 March 2024***(All amounts in INR thousands unless stated otherwise)***1 Company overview**

Stride Fintree Private Limited ("the Company") was incorporated on August 31, 2020 with its registered office address as First Floor, E13/29, Harsha Bhawan, Connaught Place, New Delhi, Delhi, 110001. The Company is engaged in providing tech-driven access to credit and associated services, for small and micro businesses in the Startup ecosystem.

2 Significant Accounting Policies**2.1 Basis of preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013, read together with Companies (Accounting Standards) Rules, 2021. The financial statements have been prepared on an accrual basis and under the historical cost convention.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring an adjustment to the carrying amounts of assets or liabilities in the period in which they materialize.

2.3 Current – non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

2.4 Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of the purchase price and any attributable cost of bringing the assets to its working condition for its intended use.

Depreciation on property, plant and equipment is provided on the straight line value based on the useful lives as specified in part C of Schedule II of that Act.

Leasehold improvements are depreciated on straight line basis as per the management estimate of useful life of the asset or the period of lease, whichever is shorter.

Losses arising from retirement or gains/losses arising from disposal of fixed assets are recognised in the statements of Profit and Loss.

2.5 Intangible assets and amortisation

Intangible assets comprise of computer software purchased and application software built-in by the organisation (internally generated intangible assets). Computer software stated at acquisition cost less accumulated amortisation and impairment loss, if any.

With regards to internally generated intangible assets:

- expenditure on research activities undertaken with the prospect of gaining technical knowledge and understanding is recognised in the statement of profit & loss as incurred.
- Development activities involve a plan or design for the production of new or substantially improved products or processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset.

Amortisation of intangible assets comprising computer software has been provided at written down value basis as per the life mentioned below, which in the opinion of the management represents the best estimate of useful life of these assets.

Intangible Asset	Estimated Useful Life
Application Software	5 Years

2.6 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.7 Revenue recognition

Arranger fees is recognized as per the terms of the agreement when the services are performed.

Revenue from interest on time deposits is recognised on the time proportion method taking into consideration the amount outstanding and the applicable interest rates.

Service fee based income are recognised as per the terms of agreement when the services are performed.

Recovery of expenses is recognized as per the terms of the agreement.

2.8 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset, or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.9 Employee benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

2.9 Employee benefits (continued)

Post-employment benefits

Defined contribution plans

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plans

The company operates a defined benefit plans for its employees, viz., gratuity. The costs of providing benefits under the plans are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out for the plan using the projected unit credit method. Actuarial gains and losses for the defined benefit plan is recognized in full in the period in which they occur in the statement of profit and loss.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be earned forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Employee stock option compensation cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

In accordance with Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. The cumulative expense recognized for equity settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

2.10 Income taxes

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognised in Statement of Profit and Loss.

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Lease payments under operating lease are recognized as an expense in the Statement of Profit and Loss account on straight line basis over the lease period.

2.12 Earnings per share

financing, to support their growth and expansion objectives i.e., Business Loan Undertaking; and

- (ii) providing secured loans for acquisition of machinery and equipments i.e., Equipment Finance Undertaking.

The COVID-19 pandemic had significantly affected the Business Loan Undertaking of the Demerged Company as a result of which the Demerged Company faced unprecedented challenges including increased risk in default, increased non-performing assets, tightening of the lending standards, liquidity constraints etc. which resulted in losses to the Demerged Company.

Further, to regain the strength, the Demerged Company started the Equipment Finance Undertaking whereby the Demerged Company provided loans for acquisition of machinery and equipments and generated better results as compared to the Business Loan Undertaking.

As there are differences in the approach of sourcing, underwriting and target segments of Business Loan Undertaking and Equipment Finance Undertaking, therefore, considering the fact that results in Equipment Finance Undertaking is better as compared to Business Loan Undertaking, management of the Demerged Company decided to focus on the Equipment Finance Undertaking solely and proposed to demerge its Business Loan Undertaking with and into the Resulting Company-2 which is, *inter-alia*, engaged in providing unsecured business loans to small and micro businesses.

We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Companies (Accounting Standards) Rules, 2021 specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we

identify during our audit.

Annexure 2 referred to in paragraph 2(f) under the heading "Report on other legal and regulatory requirements of our report of even date"

Report on the Internal Financial Controls under Clause (f) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Stride One Capital Private Limited (the "Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining Internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

CHARTERED ACCOUNTANTS**Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

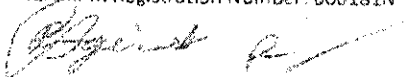

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Nevertheless, the implementation of the same needs an improvement in order to strengthen internal financial control and to make it more efficient and meaningful.

Stride One Capital Private Limited

Notes to the financial statements for the year ended 31 March 2024

(All amounts in INR thousands unless stated otherwise)

1 Company overview

Stride One Capital Private Limited (formerly known as Rising Strains Finance Private Limited) (the Company) was incorporated in India on 09 December 1991 and had received Certificate of Registration from the Reserve Bank of India (RBI) on October 2008 to commence/carry on the business of Non Banking Financial Institution (NBFI) without accepting public deposits. The Company is in the business of providing business loans to small and micro businesses.

2 Significant accounting policies

2.1 Basis of preparation

The financial statements have been prepared and presented under the historical cost convention, in accordance with the Generally Accepted Accounting Principles in ("Indian GAAP"), including the Companies (Accounting Standards) Rules, 2021 specified under Section 133 of the Companies Act, 2013 (the Act), Reserve Bank of India (Non Banking Financial Company – Scale Based Regulation) Directions, 2023 vide Master Direction RBI/DoR/2023-24/106 - DoR.FIN.REG.No.45/03.10.119/2023-24 updated as on November 10, 2023 (the 'Master Direction') issued by the Reserve Bank of India, as amended and as applicable to the Company and the provisions of the Act, as adopted consistently by the Company.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amount of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future period.

2.3 Current – non current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

2.4 Provisions, contingent liabilities, and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present obligation, that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

2.5 Revenue recognition

The Company has recognised all incomes on accrual basis except default interest income is recognised on receipt basis. Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and revenue can be reliably measured. The following specific recognition criterion must also be met before revenue is recognized:

Interest income from financing activities is recognized on a time proportion basis taking into account the amount outstanding and applying the interest rate implicit in the contract.

Default interest income is recognized on receipt basis. Till the previous year, the Company has recognised default interest income on accrual basis. In the current year, the Company has changed its accounting policy of recording default interest from accrual basis to receipt basis. The said change has resulted in recognising default interest to Rs 31,522.49 thousands during the financial year. The company has been following its earlier policy of recording interest at accrual level, then the default interest income would have been amounted to Rs 39,155.41 thousands during the year. Consequently, profit before tax would have been amounted to Rs 1,54,649.79 thousands.

Interest income from Revenue Based Finance activities is recognized as per the multiple implicit in the contract after collection of complete principal amount disbursed.

2.7 Other expenses

Other expenses are recognized on accrual basis. Expense allocation received from other companies, at cost for sharing common services and facilities are included within respective expense lines.

2.8 Provision for standard assets and non-performing assets

Assets with DPD (days past due) upto 90 days are considered as Standard Assets as per in accordance with the Master Directions issued by RBI.

Assets with DPD (days past due) more than 90 days are considered as non-performing Assets as per in accordance with the Master Directions issued by RBI.

Contingent provisions for standard assets and provision on non performing assets is created on carrying value of loan portfolio in accordance with the Master Directions issued by RBI.

2.9 Impairment

The carrying value of assets is reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the amount recoverable towards such assets is estimated. An impairment loss is recognised whenever the carrying amount of an asset, or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there is a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent the carrying amount of the asset does not exceed the carrying amount that would have been determined net of depreciation or amortisation if no impairment loss had been recognised.

2.10 Employee benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, and bonus etc. are recognized in the Statement of Profit and Loss in the period in which the employee renders the related service.

Post-employment benefits

Defined contribution plans

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plans

The company operates a defined benefit plans for its employees, viz., gratuity. The costs of providing benefits under the plans are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out for the plan using the projected unit credit method. Stride One Capital Private Limited**Notes to the financial statements for the year ended 31 March 2021***(All amounts in INR thousands unless stated otherwise)*

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Employee stock option compensation cost

Employees (including senior executives) of the company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

In accordance with Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. The cumulative expense recognized for equity settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

2.10 Income taxes

Income tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income tax expense is recognised in Statement of Profit and Loss.

Current tax is measured at the amount expected to be paid to the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income (i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted on the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

2.11 Earnings per share

Basic earnings per share are computed using the weighted average number of equity shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of equity and effective potential equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

2.12 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and cash in hand and bank deposits with an original maturity of three months or less.

financing, to support their growth and expansion objectives i.e., Business Loan Undertaking; and

- (ii) providing secured loans for acquisition of machinery and equipments i.e., Equipment Finance Undertaking.

The COVID-19 pandemic had significantly affected the Business Loan Undertaking of the Demerged Company as a result of which the Demerged Company faced unprecedented challenges including increased risk in default, increased non-performing assets, tightening of the lending standards, liquidity constraints etc. which resulted in losses to the Demerged Company.

In order to address the situation, certain loans that were deemed uncollectible or irrecoverable were written off from the books of the Demerged Company and the focus of the Demerged Company increased more on collections and recoveries.

Further, to regain the strength, the Demerged Company started the Equipment Finance Undertaking whereby the Demerged Company provided loans for acquisition of machinery and equipments and generated better results as compared to the Business Loan Undertaking.

As there are differences in the approach of sourcing, underwriting and target segments of Business Loan Undertaking and Equipment Finance Undertaking, therefore, considering the fact that results in Equipment Finance Undertaking is better as compared to Business Loan Undertaking, management of the Demerged Company decided to focus on the Equipment Finance Undertaking solely and proposed to demerge its Business Loan Undertaking with and into the Resulting Company-2 which is, *inter-alia*, engaged in providing unsecured business loans to small and micro businesses.

The proposed demerger of Business Loan Undertaking of the Demerged Company with and into the Resulting Company-2 is expected to achieve the following benefits:

- (a) Consolidation of business of unsecured business loans to micro, small and medium enterprises with and into the Resulting Company-2 which is engaged in similar line of business, leading to better administration and reduction in operational cost due to synergy in operations; and rationalization, standardization and simplification of business process.
- (b) To enable the Demerged Company to focus and enhance its Equipment Finance Undertaking operations by streamlining operations and consequently, ensuring better and more efficient management and business development.

I. APPROACH CONSIDERED IN OUR VALUE ANALYSIS:

General Principle for Valuation

There is no single definition of the term 'Value' that is suitable for all purposes or at all times. The value of a particular asset may vary according to different valuation methodologies that are adopted to ascertain the value for a specific purpose. Valuation of securities is an inexact science. It may sometimes involve a set of judgments and assumptions that may be subject to certain uncertainties.

Selection of Valuation Methodology

The objective of the valuation process is to make a best reasonable judgment of the value of the shares of the Company. There are a number of valuation methodologies to value companies / businesses using historical and forecast financials of the company. Commonly used valuation methodologies are as follows:

➤ Net Asset Value (NAV) Method

In Net Asset Value (NAV) Method, the assets and liabilities are considered at realizable value or book value, including intangible assets and contingent liabilities, if any, which are not stated in the balance sheet. From the value of the assets, the potential liabilities which would have to be paid would be deducted and resultant figure is the NAV of the company.

This valuation approach is mainly used in case where the asset base dominates the earnings capability or in a case where the valuing entity is a holding company deriving significant value from its assets and investments. NAV Method is most applicable for the business where the value lies in the

underlying assets or in cases where the ongoing operations of the business and the potential future cash flows of the business cannot be reasonably estimated or where the operations / business of an entity is discontinued. In the present instance, Companies have going on business operations. therefore, we have not considered the NAV method to calculate the value of equity share of Companies.

4 Discounted Cash Flow (DCF) Method

The Income Method focuses on the profit/earnings potential of the business being valued. The Income Method of valuation includes Discounted Cash Flow ("DCF") Method which has been discussed hereinafter.

Under DCF Method, the free cash flows attributable to the firm for a predetermined number of future years and perpetuity are considered and discounted to their present value. The free cash flows attributable to the firm are the cash flows from operating activities as reduced by the estimated/ planned capital expenditure and working capital requirement in each of the future years.

The cash flow projections, the estimations of capital expenditure and working capital requirement are based on the management's view of the future business prospects of the company and the anticipated economic conditions in relation to the industry in which the company operates.

In the present instance, Companies have on going business operations. Accordingly, the Management of Companies has provided the future projections. Therefore, the discounted cash flow approach has been applied for the purpose of valuation of Companies.

4 Market Price Method

The market price of an equity share quoted on a stock exchange is normally considered as the value of equity share of the Company, if such shares are frequently traded subject to speculative support that may be inbuilt in the value of such shares. Equity Shares of the Companies are not traded on any stock exchanges and therefore, Market Price Method is not relevant for the present valuation exercise. Hence, we have not considered this method for the valuation.

*** Comparable Company Multiples (CCM) Method**

Under the Comparable Companies Multiple Method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation method is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. The base(s) to which a multiple is commonly applied include sales, EBITDA, cash flows and book value.

The Companies has less or nil revenue. Given this and the non-comparability with listed companies, this method has not been used to calculate the fair value of equity shares of the Companies.

II. Basis for arriving at Swap Ratio:

Based on the discussions in the preceding paragraphs w.r.t valuation methodologies as well as regulatory requirements, we have determined appropriate value of the Demerged Undertaking and Series A3 CCPS of SFPL based on the methodology of Discounted Cash flow Method.

III. VALUATION OF EQUITY SHARES:

statement for the period from Financial year 2023-24 (3 Months) to Financial year 2027-28 ("explicit period") as provided to us by the Management.

For the explicit period, free cash flows from the business have been arrived at as follows:

- Profits after Tax as per the projections have been considered.
- Depreciation & amortization on fixed assets have been added.
- Fund requirements for incremental working capital and capital expenditure have been reduced from the cash earnings of the respective years.
- The cash flows of each year are then discounted at the Adjusted Weighted Average Cost of Capital (WACC). WACC is considered as the most appropriate discount rate in the DCF Method, since it reflects both the business and the financial risk of the Company. In other words, WACC is the weighted average of the firm's cost of equity and debt. The WACC is worked out using the following parameters:

- Cost of Equity is worked out using the following formula:

- Risk Free Return + (Beta x Equity Risk Premium) + Company specific premium;
- The risk free rate of return is taken at 7.07% based on Indian government bond rate for 10 years – source, (<https://countryeconomy.com/bonds/india?dr=2024-02>).
- Industry leveraged Beta is considered as 1.00 since we don't have any exact comparable listed company.
- Based on qualitative analysis of long term, equity risk premium, expected premium is arrived – source, CAGR of BSE Sensex S&P 500 from 1st February, 1999 to 29th February, 2024 i.e. 7.71 % - Source: www.bseindia.com;
- Company specific premium of 5% has been considered based on size of SFPL and past profit history of SFPL;
- Based on the above, the Cost of Equity is determined to be 19.78 %.

- After the explicit period, the business will continue to generate cash. In DCF Method, therefore, perpetuity value is also considered to arrive at the enterprise value. For arriving at the perpetuity value, we have considered a growth rate of 5.0% based on management estimate.
- Cash flows for perpetuity have been arrived at after considering the corporate taxes, estimated capital expenditure and incremental working capital requirements.
- The discounted perpetuity value is added to the discounted cash flows for the explicit period to arrive at the enterprise value.
- Appropriate adjustments have been made for cash and cash equivalents to arrive at the Equity Value.
- Since SFPL is an unlisted company, discount for lack of marketability has been considered at the rate of 15% on the Equity Value.
- The value so arrived is divided by the outstanding number of equity shares, CCPS and ESOPs on fully diluted basis as on the date of this report to arrive at the value per share.
